BBC Charter

I am a BBC fan I listen to BBC world service and visit BBC. Com almost every day, the coverage provided by BBC is excellent from news to sports specially cricket which is my favorite. From couple of years BBC.com has news in different languages , but one thing should kept in mind that BBC news coverage is always neutral and does; not favor any particular county or government. Closing BBC will be a great loss and there is no replacement. I live in US for the last 24 years and I have never visited Voice of America nor listen to their service. Please think twice before making change.

Sincerely,

Qadeer Abdul
