Dear Sir/Madam,

As you can see, I live in Guernsey. Just this week our local station (which is excellent) had a phone in & BBC guest asking for listeners views on the BBC as a whole. So I am putting pen to paper to express mine.

In the morning I listen to Sarah Kennedy who is gentle on the ears, funny, informative & has some good music. I listen to our local station for news & weather. Then I listen to local topical <sup>BBC</sup> ~~Guernsey~~ programme. I often listen to Radio 4 Women's Hour.

I may watch some day time  
T.V. usually a house or holiday  
or antique show. I used to  
~~love~~ like Killroy if the topic was a  
sensible one. I don't think he  
should have gone, just for one  
statement after so many years  
doing such a good & popular job.  
I sometimes watch Weakest Link,  
but not the American version.

I don't watch any soaps or  
Police/crime dramas. I love the  
animal/nature programmes, historical  
costume dramas, hate American  
imports.

My favourite of all is the  
Archers on radio & I wish it  
was longer. Also poetry please

is very enjoyable & wish we could have Daisy Godwin on t.v more.

Lastly, I don't think your bosses should have resigned. Yes the reporter should go, but everyone makes mistakes. The Hutton report just used the BBC as a scapegoat for Tony Blair. He should be ashamed.

I would appreciate acknowledgement of this letter, if possible.

Thank you for reading this. Keep producing good entertainment at a fair price.

Yours faithfully

Rosie
