I know from personal experience that Capital Projects is squandering the licence fee beyond belief and past audits do not show and have hidden the wastage, having said that;-

The government should not interfere with our national broadcaster

The government should not interfere with international broadcasting by the Corporation

It should be given sufficient funds to continue/re-establish its place at the forefront of research

It should be given limitless funds for programming, by this I do not mean mindless mass appeal programmes such as Fame Academy or more Friends & Horses specials.

Stuart Bailey, Colchester, Essex.

PS

Long live national radio
