

S & J Baker.

BBC Chester
Review Consultation
Dear Sirs,

20.3.04.

We particularly enjoy
Evensong on Wednesday afternoons
and would appreciate more C. of E.
services on radio and/or TV.
We would like services such as
the traditional Maundy Thursday one
and the Watch-Night service from St.
Paul's to be reinstated. We value
them all the more since we
are unable to get out much.
Yours faithfully, J. & S. Baker and Stuart Baker

Dear Sus

3rd Programme

23/3/04

I think it is general knowledge that the transmitters employed by the 3rd are due for replacement. The signal is weaker than that for Programme 4. This being the case, surely it must be known to the announcers. I would make these points:-

- 1) The ~~pronunciation~~ ^{enunciation} of the majority leaves a lot to be desired
a) they speak in hushed reverential tones
b) their dissertations on the music programmes are too long. If they must give the full history of say, any composer or piece could we be advised of the time we are forced to listen to their waffle.
 - 2) There is too much YAK ^{generally} on what used to be a programme for music-lovers
 - 3) A great deal consists of piano works, presumably this is cheaper than playing an orchestral piece. However, what about the lack of organ works or those where another ~~so~~ instrument is used.
- to the Programme.

The weather folk are not allowed sufficient time other than a brief ~~general~~ ^{summary} summary generally gabbed. Need the announcers state the news headlines these are dealt with in full by the newscasters. James Naughty in particular would do us all a service by disappearing back to Scotland. We in England are swamped by Scottish speakers. I suppose this all stems from having too many Scots in places of power. Probably BPAIR against

Yours faithfully
