

BBC Charter Consultation. 12.3.04.  
London SW14 5DH.

Dear Sirs,

With reference to "Your say" leaflet.

Yes, I like very much your presentation of the news & weather and also the items of 'educational' coverage, i.e. the sorts of items that are on BBC 2 - like - to - night the "Nile" programme, that has been wonderful. However as far as sport goes you are mostly appalling. Except for the "World Cup" & the "Six Nations" which I have so enjoyed, you usually totally ignore Rugby: and time & time & time again you repeat football results until I could scream. Never a Rugby team result in sight. over-

Whoever organises what is shown between programmes - have they got some sort of phobia? Because they are all RED and DANCING - & they have recently thrown in some STATE Boarding; and: they repeat so often ~~the~~ parts of programmes to come, that when they do come I am sick of them & never watch them.

To go back to sport - you have lost for me my great love - Cricket - surely we could at least follow the County Championships - but no nothing.

No - I would not like you to run commercial services. How you raise the money is up to you - but please no ads.

I have the Radio Times every week & have done so all my adult life, & I like the set up of the

3.

programmes immensely. Perhaps you could utilise the R.T. to advertise & sell items of interest to the listening & watching public?

Re one of your other questions - no, I cannot see how you can pay for the BBC, except by licence fee, if you are going to avoid commercials. However, please try.

Incidentally could we please go back to the Balloon & beautiful views ???

Yours faithfully,

Queen Britton.

P.S.

My other great complaint - the huge no of repeats - in winter time - !!! in summer when we are indoors so much less - YES - but winter - you should be ashamed.
