

22nd March 2004

B. B. C. Charter review.

Dear Sir,

With reference to the above due in 2006, I would like to see an end to the licence fee, and allow the BBC to spend as much as it can earn commercially, to put it on a level playing field with other broadcast companies.

I should have thought it degrading for the B. B. C. staff to survive on handouts from the public, as, if the staff is any good they could compete in the open market.

Yours faithfully

J. M. Davison
