

6th March 04

Dear Sir,

Re: BBE Charter Review.

I am under the impression that you are interested to hear individuals' responses and reaction to BBE programmes.

My wife and I are disappointed at the increase in violence, aggressive behaviour and conversation, increase in emphasis on sex at all its ramifications and finally increase in bad language.

It is sad to hear about so much violence in our society and one cannot but

wonder whether television & radio
may be partly responsible for this.

We are proud grandparents of six small
children, so we are naturally very
concerned at seeds being sown in
these impressionable minds

Yours faithfully

Philip E. Edwood (M.B.)
