

B. HARPER.

BBC Charter Review.

Enjoy progs. that enlighten or make me think - Channel Four is often better, particularly by their News, Question Time, Benedict Allen - Survival + Wild Life are top quality progs. Gardening, Cooking ALL evening - Auntie has become Granny. Needs a fresh out-Cook.

The voting practice of EMail only is not fair / accurate representation.

Local radio - a sig ✓.

Yes there should be an outlet for the BBC to sell video/books of their programmes.

Organisation. Do we really need 24 HR T.V - the News just rejuvenates - why not at set times have programmes for Ethnic minorities.

Could we have ONE channel that doesn't need a Watershed because it's decent progs, no explicit sex, foul language or aggressive attitudes.

To open up the BBC from stuffy directors, have a panel of viewers to give their opinions.

No adverts please OR if no licence fee - just prog. sponsored by -

U.K. theme (Radio 4) doesn't reflect our population - perhaps partly played by the sites + still drums.
