

10/3/04

Dear Sir

I have read your leaflet the future of the B.B.C. I do not think the licence fee is not the best method to fund the B.B.C now, I note anyone with a television has to have a T.V licence why is this even if you don't watch B.B.C programmes if you only watch commercial programmes every year we are ask to pay more, commercial stations also have news programs just as well as the B.B.C. I would prefer it was funded by pay as you view or it was privatised. as a P.T.C, and the penalty for not having a T.V. licence well you know, and what it cost to collect the T.V. licence

P.T.O.

As you know we are at 2004
now, I think it is outdated
if I want more news I buy a
newspaper. If I want to, there
are more things to watch than
the B.B.C., at the present we only
have 2 B.B.C. channels. Watch
we hardly watch my should
we be ask to pay more, we are
2 pensions, and it is more than
we can afford. every year
I hope you bind my comments
as to what I am thinking
E V Handley
