BBC Review  
Cockspur Street  
London.

Dear Sir

All BBC TV should be funded by subscription, all BBC radio, funded by government. Why should we pay for BBC news in Spain and elsewhere when exports pay no licence fee.

What a waste of money, and stupid and most irritating example. We are being presented with procs to whacking our programmes. The dancing spinning wheel chairs, acrobats exercising. I feel embarrassed when overseas relatives etc

I used to love listening to Valentine  
Joyle in "The man in black" Jack Barton  
Special Agent Tommy Handley TMA.

are visiting, why can't we have a similar intro like the hot air balloon showing some of our beautiful countryside.

The BBE seems to revel in the accents of childrens presenters and does harm when grand children keep having to ask you to interpret what has been said. I realise we don't want to return to the old straight lace days of the past, but let us keep some standards.

Its a pity which clock has been spent with a five live presenter and his comic actions with his co presenter.

The BBE has no equal but with over 2.5 Billion pounds per annum it should be better than the rest.

Yours faithfully.

KOAKLEY.
