

Dear Sir

B.B.C QUESTIONARE

- 1) That it exists - in spite of vested interests that would destroy it.
- 2) Ridiculous question. Only the management can deal with this, on a continuing & day by day basis.
- 3) Radio excellent. Television has gone well down market over the last years. Before, one had a good choice - now too many quiz/make-over/soap opera/prurient programmes. Now, one has to look hard to find something other than totally ephemeral. I have an Europe satellite system (Eutelsat). I get 2 French stations - Cinquieme & TV5, Europe. They are excellent. I suggest that you make a study of their programmes & quizzes. (D.W. is also very good)
- 4) Yes. Bugger Murdoch & his like
- 5) LICENCE FEE. Anything else would be the kiss of death.
- 6) Yes, essentially
- 7) As is. Providing that the present board is replaced by people with spines & experience. Davies, Dyke & Gilligan should not have gone. The board were like rabbits in car headlights. Campbell is, apart from being a shit, a bully. Bullies will always prevail over cowards, the meek & do-gooders. I have seen the same thing in Industry.
- 8) The B.B.C has done very well since Reith. The danger is pulling up the plant to see what the roots are doing.

Yours - -  
Tom Lynch. (T.A. LYNCH)
