

B.B.C REVIEW  
COCKSPURR STREET  
DCMS  
LONDON SW1Y 5BH

Dear Sir or Madam.

The B.B.C produces a wide variety of programmes most of which are well made some being excellent, including your Drama Documentaries, Sports coverage etc. Why therefore don't the makers of these programmes want the public to watch them. The main example is the Sports coverage particularly of Rugby but also of Football and motor cycling. The coverage would be excellent but it is ruined by the flashing up of symbols just at the time one is trying to concentrate on replays or close ups, these are irritating to the eyes and if watched for more than a few minutes cause headaches. I am not the only one to mention this but it is done more and more making viewing such sports not worth the bother. Indeed I found the England Ireland Rugby match Saturday 6th so unpleasant to view I switched off after a few minutes. The ITV network also uses some unpleasant tactics now including other types of distracting fancy camera work but the B.B.C appear to be the most expert in ruining their great programmes like this. Would it be possible to do without it.

Yours faithfully  
H.R. Southworth H.R. SOUTHWORTH MR
