Dear Sais Your BBC - Your Say

I hope you will listen questionnaire.

to the responses you get. Primarily we value the BBC for its IMPARTIALITY and TRUTHFULNESS! However it does not reflect the Black Community sufficiently well - see encls. There should be more Black & Asian people in positions of power - on the board of governors - black shows written & produced by people of the same background. Why are there so few documentaries now? We pay the licence fee, but there is so much rubbish i.e. quizzes, reality shows, cookery shows, that most evenings we turn the T.V. off till the 10.00 news. Bring back quality programs. Do NOT allow advertising on the BBC. Keep the licence fee with a reduction for pensioners. Keep the governors to oversee internal & external running. Keep independence from ~~g~~ government. Check the accuracy of your reporters - this is very important. The whole world listens to the BBC knowing that it is accurate & impartial. The public could be invited to participate in regional meetings annually to express their points of view. These could be published in the Radio Times. We want to know what is going on. Is there going to be feedback from this questionnaire?

Yours sincerely F C Weitzel (Mrs)
