BBC Charter Review Consultation.

Dear Sirs,

Thank you for your leaflet "Your BBC Your Say" which I have only found today. For me the most important point is...

The BBC should not be accountable to Parliament. The BBC needs to be independent so that it can report accurately on our government. A BBC "accountable" to the government is just the same as terrible situation in Italy. The BBC may have been discredited by the Hutton enquiry, but it is better to have the uncorbed reporting than a BBC which is a slave to report. What would happen if a British government became corrupt, dangerous & full of liars and the BBC were too controlled to report the fact!

Yours sincerely

B.P. Wordyette
