

To BB.C. Charter Reviewers -

In reply to your request for comments & May I ask why do we have 'informat' music played while watching films on (WILD) LIFE - documentaries etc -

As a reviewer I do like these programmes which are completely spoilt by this intrusion - more often than not the music drowns the speaker's voice

Secondly I would like 'some' classical music on T.V too - Fortunately I have B.B.C-4 - which relayed quite a few of the 'proms' last year - I hope it will be repeated -

Last Saturday we were to be rewarded with Wagner's 'The Valkyries' plus Monday - which was shortened somewhat - only to be replaced with yet another film - why not a 'Prom' from your library? which would have completed an evening of music - what a wonderful change - (refer to To-days (Wed) letter in the D.T.!!)

hastly - fewer Repeats please!!

Sincerely

Wendy A. Charlton
