BBC Charter Review27 April
2005

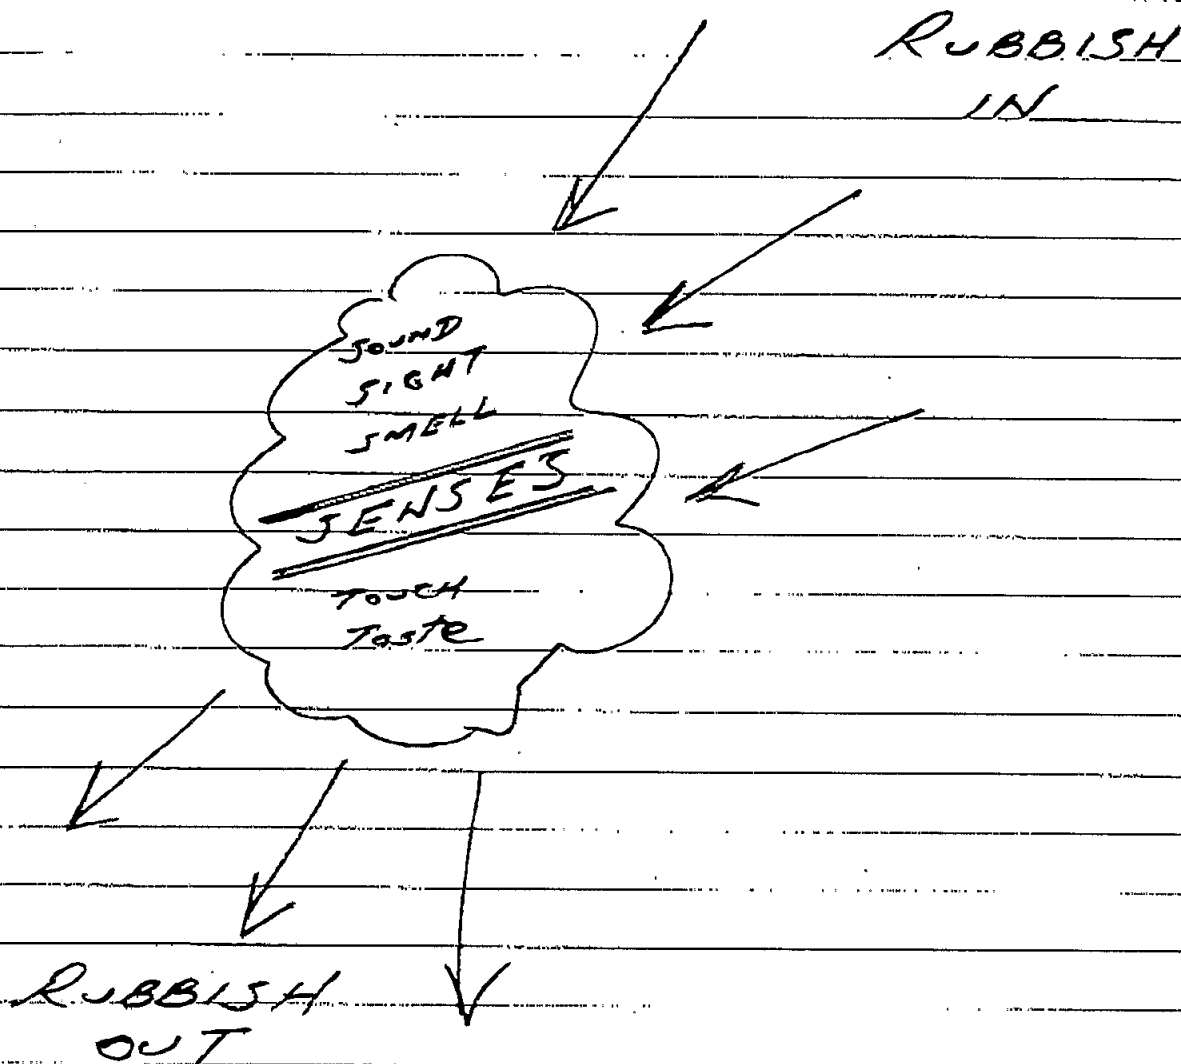

Dear Sir/Madam

Visual stimulation has a great effect upon brain function and subsequent behaviour. Hence it is important for the BBC to recognize this fact and therefore be aware of what it is capable of sending into every home in Great Britain, and with satellite technology, into every home on planet Earth!

Sincerely in Holistic Health and
Fitness Education

David T. Chapman

Feed people RUBBISH then you must expect RUBBISH OUTPUT !

It's really just COMMON SENSE !
