Dear Sirs,

In reply to your advertisement in the national press asking for my opinion as to the impartial and informed service you are providing.

As a so called news junkie I must point out that in the last six months I have noticed a marked swing in favour of Blair and his bunch of incompetents, not that the Tories are any better!

One specific case in mind was on Friday the 25th of the second 05 listening to LBC James O'Brien, in the midst of a discussion about birds, at 10-45 exactly, he introduced Blunkett! the disgraced former Home Secretary who was caught misappropriating Public Funds, giving him valuable air time for a Labour Party plug, saying how much he was looking forward to getting back in the Cabinet, you bet he was!

I phoned LBC immediately, saying where was the Lib Dem or Tory response, and was given short shrift by your researcher,

P.O

Now come along B.B.C. this will not do!
you are breaking the rules of your charter.
The Public all know about the left
wing slant the B.B.C has, however
please do not make it so obvious.

Oh yes, I could not believe it, mid-after-
noon on the same day that ghostly man
Blunkett was on again live! come on.
really thats too much.

I will appreciate a reply to this letter
with your comments.

Yours faithfully

Grant Davis
