

D. J. DAVIS.

12.4.2005.

Having picked up the folder "You BBC Your Say" I decided to present one or two of my views. When I left school, at 14 and became an apprentice to the electrical co., I immediately started to work with ex-soldiers from the trenches of 1916 - and seaman from the R.N., and all this was a shock that "upset the apple-cart" as Shaw would have said.

From that period with my own experience of the war years - studies in history and the real politics of life, I take everything that emanates from the establishment with the biggest pinch of salt possible.

ALL THE NEWS from the BCC, Radio or TV, ITV most of the privately owned media is edited - screened - filtered - sanitised etc and presented to us - the sheep, as

THE TRUTH! Millions of people agree with me on many of these points, but you of course will go on, rather like the street organ churning out the same old stories.

Of course I know its the same methods in all countries, the ideological battle will go on, the question is, when will the sheep stop saying Ba. ----- Yours sincerely
D J Davis.
