

**Stanley Martin Everard**

**30<sup>th</sup> March 2005**

**SUBJECT ; YOUR SAY**

I advocate "Concise, Clear & Simple Text makes for ease of Reading and Understanding" I hope the following will provide just that and be acceptable comments with regard to Television as a whole.

**SOUND**

"Decibel output" - programmes and Channels need regulating through out the industry. Improve use and tone of microphones Allow more time for e.g., news readers in their deliveries.

Discontinue music and noise etc introduced as background which kills speech of Actors and News Readers.

**VIEW**

Provision text panel across bottom of screen for any text, scores etc (Black on white background)

The lead-in to programmes should be reduced. to provide time for presentations,

**STAFF**

Cut intro to programmes.

One presenter is capable of reading News WHY two/three .Equally applicable to the Lottery etc.

- EDUCATE** Provide subjects e.g.; elocution, deportment, dress sense, colour coordination, personal housekeeping/finances. Guide the young to achieve a sense of Pride.
- PROGRAMMES** enforce censorship, ban foul language, explicit sex, violence.(Cut the need for issuing warnings.) Do away with the 9 p.m. free for all licence.  
Promote the use of t English e.g., referring to children as "kids" should not be permitted.  
Repeats, show once per year only.
- BIAS** Allow equal time to each and every Political Party - not only to the three main parties and at election periods. Include European matters, true facts not propaganda.

Yours sincerely

  
S.M>Everard (Mr)
