Replied
5/7

Dear Sirs,

In reply to your advertisement in
The Times newspaper "You BBC, You say".

I am writing on behalf of the residents of
the Church Stretton areas who are unable to
receive Freeview or channel 5 TV.

We have read in the national press that a
criminal pleaded his human rights were being
breached because he could not receive channel 5,
so it was installed in his cell for him. Also
we have read in the local press that Freeview
has been installed in Shrewsbury jail for the
prisoners. It seems the wants of criminals are
pandered to, while we go without. We wonder WHY?
Enquiries have received answers of "Dunno",
"Hever" and "2010".

As the program quality on BBC 1 and 2
deteriorate many are wondering whether
it is worth renewing our licences.

Yours faithfully.
J. Jones.
