

11-3-2005.

Dear Sirs,

As a licence - payer I wish to offer my observations, if I may, on your forthcoming Charter Review. Firstly, I know you deny any "DUMBING DOWN" of your programmes, but I can see a vast difference in the quality of your out-put nowadays, a few years ago you could TELL the difference between The BBC's out-put & the Commercial Stations (ie ITV, Border etc.) nowadays I'd say the quality is about the same i.e. TRASH TV FOR THE MASS, if a show "works" glos it as doct, if a journal works repeat it ad nauseum.

Yet you exte popular programmes like " WILD LIFE ON ONE ", & " ANIMAL HOSPITAL ",

As an example; both very popular with your
viewers, both not only entertaining, but also
educational. I hope to know what will be
shown in the second ... "I'M A HASBEEEN
BUT I CAN PAINT, HARBIE A TUNE & DANCE
A BIT", perish the thought.

Further now, why not show
advertis and abolish the licence fee? Since
viewers saw similar programmes for a charge!
I hope for only 3 observations,

Yours sincerely,

Li Klabar
