

12.4.05.

Dear Sir.

Re. BBC. T.V. Transmissions

WHY. WHY. WHY. - does the background music and/or sound effects have to drown out the conversation of the actors.

In so many programmes on all channels the viewer can barely hear what is being said on many occasions.

WHY. - is it so necessary to broadcast so much "junk" / broadcasters whose name appears on screen & then they have to tell us again who they are - There is far too much viewing time spent on inf-cls which reduce the programme viewing time.

Yours sincerely,
D.K. Newby (70)
