Dear Sirs.

Born in 1934, BBC Sound Radio has probably been the most important medium of communication in my life. The breadth of opinion yet impartiality that it has maintained has been a great comfort when so many types of communication are biased one way or the other.

I have enjoyed 30 years in commercial advertising worked for 6 years for ITN (1960-66), but, I sincerely hope the BBC may retain its present constitution.

Yours truly - Patrick Ridolfi
