

MR B. WARD

Dear Sirs 2/5/05

I wish to draw your attention to the Radio of newscasters in their slot on the early morning news.

They start off speaking quite normally, then after a few minutes their voices take off, and it is difficult to hear them clearly.

W

until they get back
to their normal
speaking voice. This
continues for quite
a long period, and
makes listening very
difficult.

Yours faithfully
Edward

B.B.C
