

Mt. T. WEST

20 / 3 / 2005

Dear Madam / Sir,

Please make & show more of your brilliant wildlife programmes, especially the Big Cat Family Lions, cheetahs, Big CAT Family Histories probably one of the best wildlife programmes ever. The reptile world, especially finding out more about snakes of all makes. Putting these programmes on at different times especially late at night is very good viewing & gives a good choice as its not always possible to set the video recorder.

An afternoon film or 2 is very popular in my house as my wife is not interested in sport

P.T.O.

It's nice to be able to watch a film if you are either not feeling too well or just for relaxing. But there are far too many repeats, could do with a target selection please.

I think your planning service is generally very good & sensible. For example you keep the Soaps viewing times apart e.g. EastEnders & Coronation St. & my wife says "When you show sport on one Channel, could you do a film on another please?"

This is one for your

Sports department: - In 1968, WEST BROM beat Everton 1-0 in the F.A. Cup Final. I have tried over the years to either get the whole match on video, or at least highlights including the goal, presentation of the Cup & interviews & celebrations by the players. The B.B.C. has the record &

a copyright of this match & even though I have written over the years to try & obtain or buy this film, the B.B.C. has never made this match available. As I am now a grandfather, it would be nice to show my son, who is now 33 yrs of age this match or highlights, as he is a West Brom fan & has never seen this match & has always wanted to, I would be willing to pay for this, if the B.B.C. can help me on this matter.

Best wishes,

Mr. T. West.
