

April 23.

## B.B.C. The Future.

- A. BBC World Service is very highly respected abroad & should continue so.  
Should only add TV etc: if they can maintain the same high standard
- C. BBC should be funded by licence for next 10 years.  
Radio 4 has a very high standard  
= esp in religious programmes
- D. The proposed trust should be carefully considered.  
Appts best made by the Queen to ensure independence & public confidence
- G. Funding should be kept under review - licence fee income to BBC only.

In general, we support the news of the V.L.V. No. 1. Underdogs
