For the Misery he has caused in
Iraq his soul will be damned
in Perpetuity.

His soul will not go to
purgatory. He has shown
hardly any remorse towards the
Iraq people.

The British people would like
to see him eat humble pie and
admit he ^{was} wrong to take this
country to war.

Contrition goes a very long
way towards winning back respect.
Many of us still hope the

See Dubya as a Demi-God.

America must not be allowed to steal Iraq's oil.

We do not like World Leaders acting as omnipotents.

So far the Christian Knights have restrained the Holy Warriors of St. John.

It will be for our sakes to show us guidance if further abuses of international law

take place. NEXT time the Christian Knights might not be so forgiving.

We would love God to severely rebuke George Bush and his Neo-Con Friends. We hope God

completely implodes. Mount St Helens so that Washington State becomes inconsequential. He may decide it's time to turn San Francisco into a Sodom and Gomorrah.

Too many people in America reaped what it sowed on Sept 11. Too many Americans worship money before people. They worship their sport stars even though they have information many of them have been using steroids to enhance performance. Can we take their track stars seriously anymore. You only have to look at the

Arms of Baseball Players
and American Footballers to be
Suspicious.

How many more Balco's are
