

22-03-05.

Dear Sir/Madam.

I always listen to the news twice sometimes three times a day on Television.

But that music especially the DRUM on the BBC-1 news, is deafening it goes right through ones head.

If I turn the sound down I cannot hear the news reader.

Please do something about it, it is also on BBC2 programmes & I think it is rude to put music on when someone is talking, we can do without music & sit & enjoy the programme.

Thanking You.

Yours sincerely

M. E. Gillman
