

March. 2005

Mr. Sir or Madam.

Ref BBC Your Say -

No, I am not mad about match of the day, BBC 1 Saturday,
acceptable, Not when it was on BBC 2 & BBC 4 then even on.

Sunday after noon, plus late viewing of special matches -

It was same with News items, BBC once you get a
story you flogged it to death, every time you can hear people

say if I hear, this or that one more time today. I will
go mad - turn it off I would reply, then BBC will get

the message enough is enough of Repeats. I switched
off. This followed a lot of people we all got sick of same old

films xmas & holi days they were on year after year, you could
predict what would be on TV without buying TV Book -

Who wanted to see "Animals being operated on ect when
it was, evening, when it's Sat & Sunday we need family

entertainment, & films later evening. Eastenders was
down in rating, put on same time as 'Emmerdale' not that

Emmerdale was any better, we could all watch "East ends"
Sunday, Emmerdale, Corrie you cannot, like me, I don't

have D.V. ect. or computer access. I don't really care
if I missed "Emmerdale" or "Corrie", I watched Eastenders - most

BBC its better without the adverts. So some Sports dont
attract me to watch, but, I can do switch ones on or off -

I'd like any interesting program with out all
this swearing & violence & Sex. we could have 9

Imagine basic channel with all porn / sex out for all case, but on BBC1 is my main viewing, I hope in future we can expect some old & new shows of interest & not stupid, full of violence & bad swearing, sex all of whats been on before just to get the ratings. Old films are fine but not 1932. I wasn't born then s. lent films will be on meset I thought one day. While you males have you (Sport Saturday) I watch (Ski Sunday Boxing, my kind of sport. But I feel Sunday afternoon viewing, evening should be family time on BBC & make us laugh for a change in this cruel changing world we live in - I look forward to more adventure, on BBC also please.

Thanking you in anticipation for 2006 onward. I upward the ratings will go once BBC1 & 2 are sorted I hope. Good luck with changing of BBC1. I please dont give us all the screaming "abbdabs" with repeat of News, I like whats happening in America day in & out Michael Jackson (i.e) give us "News of England more important news items" of other parts of the world - please more to life that Pop Stars - film stars private lives as if we are interested not one bit.

M.S.
