

15/3/05.

Sir,

leaving aside what I may think about policies, programme content etc. Can you please tell me why, when it is the only channel for which I have to pay, it is the only channel unable to provide decent reception.

BBC1 transmissions are unwatchable around 40% of the time - other channels from the same transmitter are perfect 100% of the time!

And as for digital - you tell me.

*P. Griffiths*
