

Industrial Development Act 1982

An Annual Report
by

**The Secretary of State for Trade and Industry,
the First Minister of Scotland,
and the First Minister of Wales**

For the year ended 31 March 2007

Industrial Development Act 1982

Annual Report

The Secretary of State for Trade and Industry,
the First Minister of Scotland
and the First Minister of Wales

For the year ended 31 March 2007

*Presented to Parliament, the Scottish Parliament and the
National Assembly for Wales pursuant to sections 11 and 15
of the Industrial Development Act 1982*

*Ordered by The House of Commons to be printed
28 June 2007*

Industrial Development Act 1982

Joint Report by the Secretary of State for Trade and Industry, the First Minister of Scotland and the First Minister of Wales

Introduction

1. As required by Sections 11 and 15 of the Industrial Development Act 1982, this Report for the year ended 31 March 2007 describes the exercise of powers under the Act, including the powers under past legislation which the Act consolidated. Sections 11 and 15 of the Act are reproduced at **Appendix 1**.
2. As a result of the devolution legislation (the Scotland Act 1998, the Government of Wales Act 1998 and S.I. 1999/672), from 1 July 1999 some powers under the Act have been exercised in Scotland by the First Minister of Scotland, in Wales by the First Minister of Wales and, concurrently throughout the UK, by the Secretary of State for Trade and Industry.
3. During the year, the Government carried out a review of the Assisted Areas of Great Britain in response to new European Commission guidelines on regional aid. The Assisted Areas map on page vi remained in place until 31 December 2006. The map on page vii was submitted to the Commission in October 2006 and was approved by them in December 2006, meaning that applications could be made under this map from 1 January 2007. A Statutory Instrument (S.I. 2007/107) brought the map into force under UK law on 13 February 2007.

Assistance Under Section 7

4. Section 7 of the IDA 1982 provides for financial assistance to industry to be given in the Assisted Areas of Great Britain. The purpose of providing assistance under Section 7 was to encourage sound projects, which will improve employment opportunities in the Assisted Areas (see map on page vi).
5. Section 7 assistance is currently provided thorough the Selective Finance for Investment in England (SFIE) scheme in England, and by the Regional Selective Assistance (RSA) scheme in Scotland and Wales.
6. Applications for both RSA and SFIE were assessed against the following criteria:
 - a) **Location** – Projects were located within Assisted Areas;
 - b) **Need (additionality)** – Applicants had to demonstrate that the SFIE support was necessary to enable the project to proceed;
 - c) **Eligible investment** – The project had to involve capital expenditure on fixed assets, such as property, plant and machinery, or expenditure related to the creation of new jobs. Expenditure had to be related to a project that expanded or modernised an existing company or established a one;
 - d) **Jobs** – If the level of SFIE support was greater than £100,000 the project had to create or safeguard sustainable jobs. Projects which were likely to create overcapacity in the market, or which simply displaced jobs from another Assisted Area elsewhere in the UK were not eligible for assistance;
 - e) **Viability** – Businesses and projects had to be viable and supported projects were judged to have a good chance of becoming self-sustaining within three years; and
 - f) **National and Regional benefit** – Projects only received SFIE support if the business case for the project indicated that it would make a positive contribution to both the regional and national economies.

7. Applications for SFIE additionally focused on delivering growth in productivity and improvements in the skills base, using the following criteria:

- g) **Productivity** – supported projects had to deliver an improvement in productivity based on the value of Gross Value Added (GVA) per Full Time Equivalent (FTE) employee compared with the sector and national averages; and
- h) **Skills** – the majority of jobs associated with a supported project had to be at NVQ level 2 (or equivalent) or above.

8. However an allowance of up to 10% of the SFIE budget may have been used to support projects in particularly deprived areas, which did not meet these skills and productivity criteria.

9. The powers to provide SFIE in England were exercised by the Secretary of State for Trade and Industry. In Scotland and Wales, the First Minister of Scotland and the First Minister of Wales exercised powers to provide RSA. SFIE replaced RSA in England from 1 April 2004.

10. Set out below are brief details of financial assistance to industry applications received and offers accepted during 2006/2007. Offers may relate to applications received in previous years.

Regional Selective Assistance

Table 1

	Applications Received		Offers Accepted	
	No.	Value £('000)	No.	Value £('000)

Rover Task Force

11. Elements of the support package to address the potential loss of the Rover car plant in Birmingham were provided under Sections 7, 8 and 11. (See Assistance under Section 11 for detail.)

Assistance Under Section 8

Section 8 Financial Limit

12. Section 8(5) of the Industrial Development Act 1982 initially limited to £1,900 million the sums paid, and liabilities under any guarantees given, by the Secretary of State under section 8, and provided that the limit may be increased on not more than four occasions by tranches of up to £200 million each. Authority to increase the statutory limit for the fourth and final time from £2,500 million to £2,700 million was obtained on 10 March 2003¹ through an Affirmative Resolution of the House of Commons. The Financial Assistance For Industry (Increase of Limit) Order 2003 came into effect on 25 March 2003². (The limit was first increased to £2,100 million by S.I. 1996/569, to £2,300 million by S.I. 2000/995, and to £2,500 million by S.I. 2002/151.)

13. As a limit of £2,700 million was the maximum possible under the 1982 Act, a bill to amend the limits in Section 8(5) was introduced into Parliament during the reporting year 2002/2003 and the Industrial Development (Financial Assistance) Act 2003 received Royal Assent in May 2003. This Act amended Section 8(5) of the 1982 Act by increasing the initial ceiling on financial assistance from £1,900 million to £3,700 million, and the subsequent four tranches from up to £200 million each to up to £600 million each.

14. As at 31 March 2007 the amount of uncommitted spend under the Section 8(5) limit was £438 million.

Section 8 Schemes

15. Assistance to regional industrial development continued to be given under a number of measures during the year.

Regional Selective Assistance (Scotland) – “Tier 3”

16. On 1 January 2007, the Scottish Executive introduced a new tier of Regional Selective Assistance (“Tier 3”) for SMEs. Operating under Section 8 of the Act and the EC block exemption regulation for regional aid and SMEs, it is available across large parts of Scotland within the Assisted Areas (“Tier 1” and “Tier 2”). It is a discretionary grant and operates along the same lines as RSA. Between 1 January and 31 March, the Executive received 2 applications and at 31 March, no decisions had been made on these.

Enterprise Grant Scheme

17. The Enterprise Grant Scheme (EGS) in England began on 1 January 2000. It was a simplified discretionary scheme for Small and Medium Enterprises (“SMEs”) in the Assisted Areas (“Tier 1” and “Tier 2”) and in specified non-Assisted Areas (“Tier 3”). Those three tiers were referred to collectively as Enterprise Grant Areas. The total amount paid out in England during 2006/2007 was £1.1million. The Enterprise Grant Scheme closed for new applications on 31 March 2004, and was replaced by the SFIE(SME) scheme. This is available at the discretion of the RDAs in Tier 3 Areas.

¹ Hansard (2002/03) No 401, c130-131.

² SI No 2003/849.

Assembly Investment Grant Scheme

18. The Assembly Investment Grant (AIG) was launched in Wales on 1 April 2002. This streamlined scheme operates along similar lines to RSA, although there are some major differences. Operating under Section 7 of the Act in the Assisted Areas and Section 8 in the non-assisted areas, it is available only to SMEs and addresses the needs of smaller businesses throughout Wales by providing easier and less costly access to grant assistance, with simpler procedures and faster turnaround times for applications and claims. Like RSA, capital investment is a prerequisite, but unlike RSA, an AIG project does not necessarily need to create new jobs – the objective being to encourage indigenous businesses to set up or become more competitive by carrying out eligible investment projects. From 1 April 2006 to 31 December 2006, grants of between £5,001 and £50,000 were available; from 1 January 2007 the upper limit was raised to £75,000. Table 3 provides details for 2006/2007.

Further details are at **Appendix 4**

Table 3

2006/2007

Number of applications received	295
Value of applications £'000	11,092
Number of offers accepted	196
Value of offers accepted £'000	6,317
Associated project costs £'000	23,457
Payments £'000	5,752

Enterprise Fund

19. The Enterprise Fund was established following the publication of the Competitiveness White Paper (CM 4176) in December 1998, to ensure that entrepreneurs have access to appropriate forms of finance. The £180 million fund was created to provide both debt and equity finance to UK SMEs with growth potential. All elements of the Enterprise Fund are administered through the Small Business Service at DTI. The budget provides flexible support for innovative proposals from the finance industry that meet particular SME financing needs. The main elements of assistance are:

Small Firms Loan Guarantee Scheme

20. The Small Firms Loan Guarantee (SFLG) scheme guarantees loans on commercial terms to small firms with viable business proposals but which are unable to obtain conventional finance because they do not have the collateral required by the lender to secure the borrowing. By providing a Government-backed guarantee against default, the SFLG encourages lenders to lend in cases where they would not otherwise do so.

21. DTI and the participating lenders have now had a full year's experience of operating the new form of SFLG introduced on 1 December 2005 to reflect the recommendations of the independent Graham Review. That experience will be described in detail in the SFLG Annual Report, which will be published in summer 2007.

22. Four new lenders joined the SFLG during the year; Bibby Financial Services, Euro Sales Finance, General Asset Management and The Enterprise Fund (Manchester), thus broadening the range of channels through which eligible businesses may be enabled to borrow.

Table 4**Guarantees Issued³ from Inception in June 1981 to 31 March 2007 by Country/Region.**

Country/Region	Number	Value (£m)
Scotland	8,932	488.004
Wales	5,290	216.008

London and the South East	31,307	1,462.045
North East	4,265	169.304
North West	10,607	478.340
Yorkshire and the Humber	8,104	359.525
West Midlands	9,263	392.245
South West	12,599	513.237
Total	105,676	4,814.377

Table 5**Guarantees Issued from 1 April 2006 to 31 March 2007^{4,5} by Country/Region**

Country/Region	Number	Value (£m)
Scotland	235	20.303
Wales	100	8.585
Northern Ireland	24	3.023
East Midlands	168	12.364
East of England	223	15.848
London	467	37.309
South East	377	29.309
North East	125	7.925
North West	310	24.161
Yorkshire and the Humber	217	17.047
West Midlands	244	18.833
South West	212	17.047
Total	2,702	211.754

³ Changes to SFLG eligibility criteria and operational processes arising in response to the Graham Review were introduced with effect from 1 December 2005. As part of those changes the point at which a Guarantee is recorded as having been issued has changed from the date of issue of guarantee by SBS to the lender to the date on which a borrower draws down a guaranteed loan from the lender.

⁴ Changes to SFLG eligibility criteria and operational processes arising from the Graham Review were introduced with effect from 1 December 2005. As part of those changes the point at which a Guarantee is recorded as having been issued has changed from the date of issue of guarantee by SBS to the lender to the date on which a borrower draws down a guaranteed loan from the lender.

⁵ Correct to 4 April 2007. Lenders have 10 working days to record a Guaranteed loan and therefore a small number of loans from late March 2007 may be excluded.

UK High Technology Fund

23. The UK High Technology Fund (UKHTF) was established to encourage institutions to invest in early stage, high technology venture capital and to increase the amount of finance available for investment in early stage technology based businesses. The 1998 Competitiveness White Paper announced the creation of the £180 million Enterprise Fund to stimulate more finance for small businesses and address market weakness in the provision of that finance.

24. The fund was also set up to address the lack of investment available to early-stage, technology-focused businesses, critical for their growth. £106.1 million has been raised from private sector investors alongside £20 million of Government cornerstone investment. This surpassed the original target of a total fund of £125 million.

25. As at 30 June 2006, £124 million of the £126.1 million raised had been committed to 9 specialist venture capital funds. These venture capital funds have in turn made investments in 238 technology-based companies.

Regional Venture Capital Funds

26. The Regional Venture Capital Funds (RVCFs) were set up to address the “equity gap” encountered by SMEs seeking small scale (£500,000 and below) investment. There are 9 RVCFs, one in each English region, and all are managed by experienced venture capital professionals, on commercial terms.

27. All of the 9 regional funds are operational. All Funds will be closed by 2015.

28. In the year 2006/2007 £5 million was drawn down by the RVCFs from the DTI. As at 31 March 2007, and since the launch of the first RVCFs in 2002, a total of £70.9 million had been drawn down from the DTI.

Early Growth Funding

29. The Early Growth Fund (EGF) programme was established to encourage risk funding for start-ups and growth firms. The objective of the programme is to increase the availability of small amounts of risk capital (averaging around £50,000) for innovative and knowledge intensive businesses, as well as for other growth businesses.

30. All EGFs were operational by March 2004. As at 31 March 2007 the Early Growth Funds had drawn down £22.9 million.

Enterprise Capital Funds

31. Enterprise Capital Funds (ECFs) were established in 2006. They are designed to be commercial funds, investing a combination of private and public money in small high-growth businesses that are seeking up to £2 million of equity finance. The Government will provide up to two thirds of the capital in each ECF, in return for a preferred return at or close to Gilt rate (4.5%), and a limited share in any profits of the fund. The preferred return is intended to cover the Government’s cost of capital, and the profit share from successful funds should offset any losses on unsuccessful funds.

32. To date one round of ECFs has completed with five funds being awarded. The second round of ECFs began in November 2006 with 30 fund proposals being received by the bidding round closing date (February 2007). The funds awarded to date will be closed by 2018.

33. All ECFs awarded became operational in the final quarter of 2006 and the DTI commitment to these funds totalled £81.2 million. As at 31 March 2007, a total of £3.9 million had been drawn down from the DTI.

The Phoenix Fund

34. The Phoenix Fund was established to encourage entrepreneurship in disadvantaged areas and within disadvantaged groups. Such disadvantaged communities often experience a shortage of jobs and relevant services. By encouraging entrepreneurship, the fund helps to overcome these shortages and promotes social inclusion. The Phoenix Fund currently comprises:

- support for Community Development Finance Institutions;
- the Community Development Venture Fund;
- Enterprise Capital Funds; and
- the Business Incubation Development Fund (see Assistance Under Section 11).

35. Support for Community Development Finance Institutions and the Community Development Venture Fund have Section 8 as their statutory basis.

Support for Community Development Finance Institutions (CDFIs)

36. The aim of this programme is to support Community Development Finance Institutions (CDFIs) in their role as intermediaries that exist to improve the availability of business finance to SMEs operating within disadvantaged communities. In particular CDFIs seek to lend money to SMEs and social enterprises who are unable to access finance from traditional sources because they are unable to offer the track record or security generally required by lenders.

37. From 1 April 2006 RDAs have been responsible for supporting CDFI activity in their regions. In 2006/2007 £763,656 was paid to support national activities to develop the Community Development Finance sector.

Community Development Venture Fund (CDVF)

38. The Community Development Venture Fund (CDVF) was created in response to a recommendation from the Social Investment Taskforce. The CDVF, also known as “Bridges”, is a £40 million fund that is a source of venture capital to small and medium-sized enterprises which are capable of substantial growth and which are located in the 25% most deprived wards in England.

39. In the year 2006/2007 £2.7 million was drawn down from the DTI by ‘Bridges’. As at 31 March 2007 and since the launch of the Fund a total of £16.3 million has been drawn from the DTI.

Rover Task Force

40. See Assistance under Section 11 for detail.

UK Coal Investment Aid Scheme (CIA)

41. The Coal Investment Aid Scheme (“the Scheme”) was approved by the European Commission on 24 June 2003 as “aid for initial investment” under Article 5(2) of the European Council Regulation No. 1407/2002 on State aid to the coal industry (“the Regulation”).

42. The aim of the Scheme is to create or safeguard jobs in the UK coal industry within socially and economically disadvantaged areas by encouraging coal producers to undertake commercially realistic investment projects which maintained access to coal reserves for projects that would otherwise not go ahead.

43. Successfully approved projects receive a grant of up to 30% of eligible costs with the mine operators financing the balance of the investment themselves. The grant is payable as progress is made on the supported project, and expenditure was incurred and defrayed.

44. The scheme was launched on 16 June 2003, with a budget of up to £60 million to be allocated in three application periods and spent by 31 December 2008. Application Period 1 closed on 31 July 2003. Period 2 closed on 1 June 2004. On Period 3 was provisionally set to close on 31 May 2005.

45. In a speech in Westminster Hall on 12 October 2005, the Minister for Energy, Malcolm Wicks, confirmed that almost £58.5 million had already been awarded in the first two application rounds, most of which would be drawn down by mid-2006, and that, allowing for project monitoring costs, the whole of the CIA fund has now been committed. This meant that the planned third application period would not take place. Eligible claims under awards in the first two periods would continue to be paid until these awards were exhausted.

46. In the period 1 April 2004 to 31 March 2005 a total of £17,344.754 was offered to 10 successful applicants. In period 2 support amounting to £40,963,621 was offered to 9 applicants. Three project applications were not successful in period 2. Details of supported projects are set out in Table 6:

Table 6

UK Coal plc	Welbeck, Nottinghamshire	5,244,000	2,541,898	7,785,898	528
		40,963,621	17,344,754	58,308,375	4,530

Notes

* Having received Section 36 approval to build an IGCC plant at Hatfield Colliery site, which would have help create 2,500 new jobs at the site and a further 1,000 locally. Coalpower were offered £15m but this offer lapsed after not being accepted by 30th April 2004.

** A revised offer of £2.2m (from £1.1.m) was made to Ellington further to the review process being completed and a revised application being submitted.

47. As at 31 March 2007, nearly £51 million had been paid in instalments to all beneficiaries upon receipt, evaluation & approval of their periodic claims for Coal Investment Aid.

48. Payments made during the period 1 April 2004 to 31 March 2007 were:

Table 7

Applicant	Mine/Production Unit	CIA Payment (£)
UK Coal plc	Daw Mill Colliery (Warwickshire)	10,680,000.00*
UK Coal plc	Thoresby Colliery (Nottinghamshire)	4,973,282.00*
UK Coal plc	Welbeck Colliery (Nottinghamshire)	7,786,898.00
UK Coal plc	Kellingley Colliery (North Yorkshire)	9,500,653.00*
UK Coal plc	Harworth Colliery (Nottinghamshire)	4,201,555.60
UK Coal plc	Rossington Colliery (South Yorkshire)	2,687,075.37
UK Coal plc	Maltby Colliery (South Yorkshire)	5,148,254.00*
UK Coal plc	Ellington Colliery (Northumberland)	849,620.00
Eckington	Eckington Colliery (Derbyshire)	176,171.00*
Energybuild Ltd	Aberpergwm Colliery (South Glamorgan)	1,678,444.86
Tower Colliery Ltd	Tower Colliery (Mid Glamorgan)	2,991,764.00
Flack & Sons	Hay Royds (Yorkshire)	88,426.72
Total £		50,762,144.55

*Grants paid in full.

Payments To Redundant Steelworkers (ISERBS)

49. The Iron and Steel Employees Re-adaptation Scheme (ISERBS) was announced in May 2001 as part of a package of measures to alleviate the impact of large scale redundancies in the steel industry. Section 8 is the legal basis for ISERBS as the scheme provided for assistance to encourage arrangements for ensuring that any contraction of an industry proceeds in an orderly way.

50. The scheme provided a single lump sum payment of £2,480 to eligible steelworkers to help them overcome the initial impact of losing their jobs. It was derived from the European Coal and Steel Community Treaty which, at article 56, specifically provided for social aid to workers affected by restructuring in the steel industry. Eligibility criteria for the payment were derived from a 1989 bilateral convention with the European Commission.

51. ISERBS applied to workers who lost their jobs, or whose job loss was linked to restructuring announced, in the period 1 January 2000 to 23 July 2002 (when the ECSC Treaty terminated). All payments due under the scheme have been made and the scheme has now been closed.

52. In 2006/2007 payments were made to 6 individuals at a cost of £14,800. Over the life of the scheme payments have been made to 13,161 individuals at a cost of £32.6 million.

Urban Post Office Reinvention Programme

53. On 15 October 2002, the Government was authorised by Parliament to provide up to £210 million to Post Office Limited (POL) to implement its programme to restructure the network of urban sub-post offices⁶.

54. The requirement for funding of POL's programme was borne from the Performance and Innovation Unit's report of 2000, which recommended that, if the Post Office decided that fewer offices were needed in some urban areas, the Government should provide financial assistance to the Post Office to ensure that sub-postmasters affected would be compensated for the loss of value of their business.

55. Up to £180 million was made available to meet the costs of compensation to sub-postmasters whose offices closed under the terms of the programme. A further £30 million was made available on a broadly matched-funding basis, for modernising and adapting those offices which remain.

56. The programme, which is administered by POL, is UK-wide but relates only to the urban network of post offices located in communities of more than 10,000 inhabitants.

57. POL completed public consultation on all closure proposals by the end of 2004 and a total of 2,486 urban sub-post offices closed under the programme. Almost 4,000 offices have received investment grant funding.

58. The spend profile for the programme below has been adjusted to show the cumulative actual spend in 2002/2003, 2003/2004, 2004/2005, 2005/2006 and 2006/2007.

Table 8

	Actual	Actual	Actual	Actual	Actual	Forecast
	2002/03	2003/04	2004/05	2005/06	2006/07	2007/08
Compensation	£14.57m	£63.23m	£149.6m	£154.99m	£154.37m ⁷	£0.00
Investment Grant	£0.02m	£5.48m	£7.0m	£23.79m	£25.82m	£0.00
Total	£14.59m	£68.71m	£156.6m	£178.78m	£180.19m	£0.00

59. DTI will monitor the take up of residual investment grant funding. There is no set end date for the scheme, though it is now expected that any remaining funds will not be made available beyond 2007/2008.

Assistance Under Section 11

Small Business Service

60. From 1 April 2007 the Small Business Service (SBS) ceased to be an agency of the DTI and is now a policy directorate within DTI's Enterprise and Business Group. SBS works across Whitehall, the Regional Development Agencies and key delivery partners to ensure that Government – national, regional and local – understands and responds to the needs of small businesses and entrepreneurs.

61. The SBS's role in taking forward Government policy on small business was set out in *Small Business and Government – The Way Forward*, published in December 2002, and setting out the policy framework for a Government-wide approach to helping small firms.

⁶ See Official Report Session 2001-02, Volume 390, Column 228-256.

⁷ The total amount of spend has reduced due to POL refunding unused payments during 2006/07.

62. It identified seven strategic themes as key drivers for economic growth, improved productivity and a wider involvement in enterprise for all:

- Building an enterprise culture;
- Encouraging a more dynamic start-up market;
- Building the capability for small business growth;
- Improving access to finance for small businesses;
- Encouraging more enterprise in disadvantaged communities and under-represented groups;
- Improving small businesses' experience of government services;
- Developing better regulation and policy;

63. These strategies were brought together as the "Government Action Plan for Small Business" published on 8 January 2004. The plan marshalled the whole of government behind the small business agenda for the first time and put the UK well on the way to the UK becoming the best place in the world to start and grow a business.

64. During 2006/2007, the SBS has driven forward the Government Action Plan focusing on four key areas: building an enterprise culture; opening up public procurement; simplification of business support; and better regulation. The SBS has funded a successful third Enterprise Week; worked closely with the Office of the Third Sector to develop and produce an updated social enterprise Action Plan; successfully launched Supply2.gov for advertising low value contracts; developed a business support simplification programme to streamline publicly funded business support to no more than 100 products and services by 2010; and helped take forward the Better Regulation agenda by scrutinising other Government Departments' proposed rolling programmes of simplification.

Business Link Operators

65. The Business Link service is a crucial part of the Government's campaign to promote enterprise and to make the UK the best place to start and grow a business. Business Link provides the information, advice and support needed to start, maintain and to grow a business. The service exists to help anyone who is thinking of starting a business; to help small and medium-sized enterprises to grow; and to help businesses to deal with problems, challenges and opportunities.

66. Business Link is available to all businesses – whether a private company, public company, a partnership, sole trader, a community interest company, a co-operative, or a social enterprise.

67. Business Link helped a total of 799,471 customers during the twelve months ending December 2006. This was the highest 12 month performance figure so far and represents a penetration rate for established businesses and those thinking of starting a business of 43.6% IDBR.

68. Customer satisfaction with Business Link services remains consistently high at 91%, with 96% of customers being willing to recommend the service to others. 91% of customers said that they would use the service again.

69. Responsibility for the Business Link brand policy remains with DTI, though operational responsibilities have been transferred to the Regional Development Agencies.

70. To find out more about Business Links, visit the websites at www.businesslink.gov.uk

Business Incubation Development Fund (BIDF)

71. The 2005 budget made financial provision for enhancing the supply of quality business incubation, primarily in disadvantaged areas and communities. Grant support was available for business incubator running costs linked to the provision of business advice.

72. Under BIDF, managed by UK Business Incubation, the Small Business Service provided £2 million in grants during 2006/2007.

Rover Task Force

73. The Rover Task Force was set up in 2000 to look at the potential effects on the region's economy of the then expected decline of Rover and its supply industry – which was a severe risk at the time of the BMW withdrawal from the company. Its aim was to address how both the region's automotive supply chain could be supported, and how the region's manufacturing base could be helped to modernise and diversify.

74. The Task Force is led by Advantage West Midlands which produced two reports, an Interim and Final, during 2000. The Interim Report was designed to provide a quick response, recommending a range of support to automotive component suppliers in the region, limited to the financial year 2001-2002. The Final Report identified a variety of initiatives to support the diversification and regeneration of the region's economy and build on the support provided through the Interim Report to modernise the automotive base. In total £59.4 million has been made available for a range of initiatives to modernise, regenerate and diversify over a five year period ending March 2006, of which £12.9 million of resource was consumed in 2005/2006.

75. The various initiatives in the main provide advice and consultancy support to the region's SMEs (provided under Section 11 of the Industrial Development Act 1982) but also include elements of capital grant and access to finance (provided under sections 7 and 8 of the Industrial Development Act 1982) to help implement recommendations and action plans as well as grants or loans to promote careers in industry (provided under section 12 of the Industrial Development Act 1982).

76. Resource consumed in the financial year 2005/2006 is broken down as follows:

	2005-06
Section 7	£2,655,610
Section 8	–
Section 11	£10,225,440
Section 12	£60,174
Total	£12,941,224

Note: 2005/2006 figures have been updated to take account of final spend figures in that year.

The Intellectual Assets Centre

77. In December 2003 Scottish Ministers announced the set up of a new Intellectual Assets (IA) Centre to help Scottish businesses identify, protect and exploit their intangible and often highly valuable assets. These included brands, employee know-how, trade secrets and technical information as well as formally protected intellectual property such as patents, designs and trademarks.

78. The Centre was funded by the Scottish Executive's Business Growth and Innovation Division (New Initiatives Unit) and was operated by Scottish Intellectual Asset Management Ltd, a company set up for that purpose jointly by Scottish Enterprise and Highlands and Islands Enterprise.

79. The first of its kind in Europe, the Glasgow-based Centre's main activities were:

- To raise awareness of IA through events, seminars and information provision;
- To identify gaps in the provision of IA support to businesses and identify appropriate solutions, and;
- To provide signposting and advice to companies seeking IA management services.

80. The IA Centre had been fully operational since late August 2004 but some key staff had been in place since April 2004. Assistance of £1,394,650 was provided in 2006/2007.

Assistance Under Section 13

Improvement of Basic Services

81. Section 13 provides grant where adequate provision has not been made for the needs of any Assisted Area in respect of a basic service. Basic service means the provision of facilities for transport (whether by road, rail, water or air), or of power, lighting, heating, water, sewerage, sewage disposal, or any service or facility on which the development of the area in question and in particular of industrial undertakings therein, depends.

82. During the year, 1 application was received and 3 were brought forward from 2005/2006, for grant towards improvement of basic services in the Assisted Areas. At 31 March 2007, grants totalling £150,347.65 had been approved towards 2 schemes with estimated costs of £501,158.85. Further details are at **Appendix 5**.

83. Following a Review by Ministers of Defra funded schemes, grants under section 13 towards the provision of water and sewerage infrastructure will no longer be available from 1 September 2007.

Assistance Under Part III Of The Industry Act 1972

The Home Shipbuilding Credit Guarantee Scheme

84. The Home Shipbuilding Credit Guarantee Scheme closed to new applications on 1 October 2004 (with 5 April 2005 being the final date for signature on guarantee contracts). The scheme guaranteed loans provided by commercial banks for the building, completion or alteration of ships, and mobile offshore installations. It allowed banks to provide ship-owners with loans at floating rates or fixed Commercial Interest Reference Rates for individual borrowing up to a maximum repayment period of 12 years. Loans were made in pounds sterling, US dollars, euros or a combination of these currencies. The Scheme was based on OECD understandings.

85. The Statement of Guarantees for the year to 31 March 2007 was as follows (2005/2006 figures in brackets):

	No. Of Guarantees	Amount of Principal Guaranteed (£)
Guarantees offered in 2006/2007	1 (12)	1,680,000 (16,800,000)
Repayments in year 2006/2007	3 (9)	11,443,605 (10,422,948)
Guarantees current on 31 March 2007	13 (15)	26,744,263 (39,019,767)

86. In the year to 31 March 2007 payments of interest equalisation to the banks totalled –£54,000 net (previous year £48,000). These were paid by the DTI under the authority of the Industry Act 1975 (section 25).

Commentary on Scotland, Wales, and the English Regions

Scotland

Government Assistance

87. During the year, 301 applications for RSA were received and 134 offers accepted to the total value of £92.4 million. These projects were associated with £416.9 million of capital investment, and were forecast to create 5,628 jobs and safeguard 3,608 jobs, at an average cost per job of £10,005. These figures compared to 195 applications in 2005/2006, with 151 offers accepted to the value of £59.4 million, towards capital investment of £245.7 million and the creation of 6,076 jobs and the safeguarding of 2,214, at an average cost per job of £7,167.

Report by the Chairman of the Scottish Industrial Development Advisory Board

88. The Scottish Industrial Development Advisory Board (SIDAB) was set up under section 20 of the Scottish Development Agency Act 1975, to advise on applications for RSA where the level of assistance is in excess of £250,000.

89. During the year SIDAB met on 11 occasions. The Board considered a total of 55 cases and recommended that RSA of £110.8 million be offered. These offers were associated with planned capital investment of £476.1 million and the forecast creation and safeguarding of 12,700 jobs. The average cost per job for these projects was £8,726.

90. Since the last report, Mr Archie Bethel OBE and Mr Afzal Khushi CBE left the Board and I would like to thank them for their valuable input. 2 new members were appointed to the Board in the last year, Mr Neil MacDonald, Director, LEADERS Management and Investment and Mr Kevin Moore, Managing Director, Business Therapies Ltd.

VIKRAM LALL CBE
Chairman

Wales

Government Assistance

91. During the year, 129 applications for RSA were received and 102 offers accepted to the total value of £63.6 million. These projects were associated with £212 million capital investment and were forecast to create 4,155 new jobs and safeguard a further 2,408 jobs, at an average cost per job of £9,698. These figures compared to 122 applications in 2005/2006, with 109 offers accepted to the value of £89.7 million and the creation of 6,178 jobs and the safeguarding of 2,488, at an average cost per job of £10,348.

92. During the year, 295 applications for Assembly Investment Grant were received and 196 offers accepted to the total value of £6.3 million, towards capital expenditure of £23.5 million. This compares to 325 applications in 2005/2006, with 202 offers accepted to the total value of £6 million, towards capital expenditure of £23.4 million.

Report by the Chair of the Welsh Industrial Development Advisory Board

93. The Welsh Industrial Development Advisory Board was set up under section 13 of the Welsh Development Agency Act 1975, to advise Assembly Ministers on applications for RSA where the level of assistance is in excess of £500,000 (raised from £350,000 with effect from 1 April 2006).

94. The Board met on 12 occasions during the year and advised on 32 applications for Regional Selective Assistance. The Board recommended that 95. RSA of just over £76 million be offered to assist £302 million of capital investment which was expected to create 7,847 new jobs and safeguard 1,004 others, at an average cost per job of £8,612.

96. During the year, Mr. G Long and Mr. R Fowler were re-appointed to the Board.

VALERIE BARRETT

Chair

The English Regions

Industrial Development Advisory Board and the Regional Industrial Development Boards

97. The Industrial Development Advisory Board (IDAB) is appointed under section 10 of the Industrial Development Act 1982, to advise the Secretary of State on the exercise of his/her functions under sections 7 and 8 of that Act. The main work of the Board was to advise on individual company applications for SFIE, which was available in the Assisted Areas in England, where the grant sought was £2 million or over (prior to 1 April 2004 its work was to advise on applications for RSA of £2 million or over).

98. There are 7 non-statutory Regional Industrial Development Boards (RIDBs), which have been set up in the English Regions to advise on individual company applications for SFIE between £250,000 and £1.99 million, except the East of England RIDB, which advises on applications between £100,000 and £1.99 million.

99. A full list of all Board members can be found at **Appendix 6**.

Industrial Development Advisory Board

Report by the Chairman of the Industrial Development Advisory Board.

100. The Board met three times during the year. Three cases were examined under section 7 of the Act. The Board found that all cases met the SFIE criteria and recommended to Ministers that they should be supported.

101. The total number of jobs in the three cases were 3,148 of which 890 were new jobs and 2,258 safeguarded. Total capital investment in Assisted Areas of these projects was expected to be £216.2 million.

102. At the request of the Minister of State for the Regions the board also examined the impact of the SFIE cost per job control and proposed changes in order to make it more market facing.

103. I am grateful to members of the Board for their contributions and their support during the year. Michael Beverley retired from the Board during the year and the Board wishes to thank him for his valuable contributions to the Board's activities over several years.

GORDON PAGE CBE
Chairman

East of England

Government Assistance

104. A total of 61 enquiries were received in 2006/2007. This was a decrease of 6 enquiries from the 67 received in 2005/2006. The majority of these applications and enquiries coming forward have fallen below the level of the board's delegated responsibility.

105. 32 (local) applications were received of which 15 funded, which by value were negotiated to below the board level. These were worth £2 million in grant and a capex value of £16.5 million.

106. 1 application was withdrawn by the applicant after an offer letter had been issued. 1 further application is in the process of being appraised.

Report by the Acting Chair of the East of England Industrial Development Board.

107. The East of England Industrial Development Board met six times during 2006/2007. Of the 7 applications which came forward, 5 were supported to the total value of £4.8 million. These projects were associated with £29.6 million capital investment, and were forecast to create 280 jobs and safeguard 621.5 jobs, at an average cost per job of £5,410.

108. 4 projects were supported immediately; 1 was supported following the provision of further information. 1 meeting was inquorate and unable to make a decision. Following advice from Government Office the case in question is to be referred to the Chief Executive of the RDA for a final decision. The information will be fed back to the Chair at the next meeting. The Board did not support 1 application.

109. These figures are compared with 9 applications in 2005/2006 with 5 offers accepted to the value of £1.4 million, towards capital investment of £9.3 million and the creation of 77 jobs and the safeguarding of 125, at an average cost per job of £5,202.

110. More applications at all levels, especially the higher value cases, were being filtered out of the system due to the stricter GVA criteria and therefore do not reach the stage where they are submitted to the board for decisions. It was still generally felt that this criterion increased the quality of applications submitted to the Board.

111. The Chair of the Board reached the end of his term of office at the end of December 2006. The Board expressed its sincere thanks to Keith Hamilton for his excellent Chairmanship during his term. Since January, the Board has been run with an acting Chair in place.

112. A recruitment campaign is currently underway for a new Chair. Another recruitment campaign to increase the number of Board members is planned. Currently, including the Chair, the panel of members stands at 8 which results in difficulties reaching a quorum. The East of England Development Agency will hold an induction day for these new members. This will familiarise the new members with the DTI product and the processes concerned.

A DAVIES
Acting Chairman

London

Government Assistance

113. During the year 25 applications for SFIE were received and 17 offers accepted to the total value of £3.947 million. These projects were associated with £50 million capital investment and were forecast to create 476 jobs and safeguard 443 jobs at an average cost per job of £4,295.

114. These figures compared to 29 applications in 2005/2006, with 29 offers accepted to the value of £5.845 million, towards capital investment of £62.4 million and the creation of 610 jobs and the safeguarding of 964 jobs, at an average cost per job of £3,713.

South East

Government Assistance

115. During the year, 46 applications for SFIE were received and 24 offers accepted to the value of £3.5 million. These projects were associated with £86.8 million capital investment and were forecast to create 400 jobs and safeguard 63 jobs, at an average cost per job of £7,775.

116. These figures compared to 20 applications in 2005/2006, with 9 offers made to the value of £2.1 million, towards capital investment of £79.2 million and the creation of 340 jobs and the safeguarding of 1,305, at an average cost per job of £1,301.

117. In the 2 months prior to the end of the former SFIE scheme in December 2006, SEEDA requested potential applicants submit a summary project proposal before submitting a full application. This allowed for a comprehensive sifting process for quality and forecast productivity growth. SEEDA received 40 summary proposals of which 23 were progressed to full application. This process had greatly increased the quality of full applications submitted to, and supported by, SEEDA.

Report by the Chairman of the London and South East Industrial Development Board

118. 2006/2007 was another year of solid achievement. During the year, the Board held 5 meetings to consider 4 cases from London and 1 case from the South East, for SFIE. Assistance of £4.39 million was approved, promising to lever capital investment of £105.295 million and safeguard/create 609 jobs at an average cost £7,209.

119. London and The South East remain strong economic drivers for the UK economy. However, in an ever changing commercial environment which is becoming increasingly more competitive, the Board is very conscious of the importance of opportunity for all, the development of technical skills throughout the community and the encouragement of entrepreneurship, particularly in deprived areas. The cases considered during the year will continue to address these needs.

120. With the approach of the London 2012 Olympic Games, it was particularly pleasing to note that a number of the applications came from the Lower Lea Valley and that assistance could be provided to help those companies affected to continue to grow their businesses. It is an exciting time for the area and its regeneration is already beginning to bear fruit with the creation of jobs and opportunity.

121. Once again, I am extremely grateful to my colleagues on the Board for continuing to give up their valuable time so freely, and for bringing their considerable expertise to the careful and thoughtful assessment of each case. We were extremely sorry that Jim Hicks was forced to retire during the year due to ill health. Jim was a great strength on the Board and will be much missed. I should also thank Robert Stiles, Praful Davda, Inderjeet Singh Sodhi and Gulbrinder Gill for their contributions to the Board before their retirements this year.

122. I would also like to thank the officers from the LDA and SEEDA who support the Board by providing excellent Quarterly Economic Reports, by preparing succinct case summaries for assessment and for answering the often very searching questions posed to them. Without all their hard work the Board could not operate.

MR J McCREADY
Partner, Ernst & Young UK plc

North East

Government Assistance

123. During the year 140 applications for SFIE were received and 109 offers made to the total value of £27.1 million. These projects were associated with £340.4 million capital investment, and were forecast to create 3,031 jobs and safeguard 2,421 jobs, at an average cost per job of £4,974. These figures compared to 178 applications in 2005/2006, with 124 offers made to the value of £15.8 million, capital investment of £126.7 million and the creation of 2,691 jobs and the safeguarding of 1,452 jobs at an average cost per job of £3,814.

124. The SFI scheme continues to play an important and effective part in the economic development of the North East in line with One NorthEast's Regional Economic Strategy.

125. By focusing on quality aspects of the grants scheme we have been able to secure high value and exciting investment projects for the region.

Report of the Chairman of the North East Industrial Development Board

126. There has been a significant increase in the number of cases handled by the North East Industrial Development Board during the past year with the Board holding 8 meetings and considering a total of 14 SFI applications, compared with 7 cases and 7 meetings in the previous year. The 14 approved projects involved grant support of £17.3 million, capital investment of £254.8 million and the creation of 1,590 new jobs and the safeguarding of 1,185 jobs at an average cost per job of £6,232.

127. The Board was pleased with the outcome of the new assisted areas map review and believes that SFI continues to play an important role in the economic development of the region.

128. I would like to thank Lorna Moran MBE for her important contribution to the Board over many years. Lorna retired as Chairman during the year and will be badly missed. I would also like to thank Rod Taylor and Haani Hasnain who retired during the year.

129. New members welcomed onto the Board during the year were John Pike and Kevin Maw.

130. In addition, I would like to pay tribute to the conscientious hard work of the SFIE team.

LUCY WINSKELL
Chairman

North West

Government Assistance

131. During the year, 91 applications for SFIE were received and 72 offers accepted to the total value of £17.4 million. These projects were associated with £138.9 million capital investment, and were forecast to create 2,240 jobs and safeguard 1,424 jobs, at an average cost per job of £4,749. These figures compared to 128 applications in 2005/2006, with 112 offers accepted to the value of £21.7 million, towards capital investment of £140.56 million and the creation of 2,780 jobs and the safeguarding of 1,167, at an average cost per job of £5,488.

132. The approach adopted by the Northwest Regional Development Agency during the previous year to support projects that demonstrated high quality aspects has resulted in a slight fall in the number of applications received and offers made during the current financial year. However, the quality of the projects supported is significantly higher than those supported in previous years, helping to achieve the Skills, GVA and other quality aspects of the scheme in the region.

Report by the Chair of the North West Industrial Development Board

133. This year has been slightly busier than the previous year for the Northwest Industrial Development Board with the Board meeting on 8 occasions when it considered 14 applications – up by the 6 cases considered in the previous year. 11 of the applications were offered assistance totalling £7.69 million including major investments by Sainsbury's Supermarkets Limited, The Cumberland Pencil Company Limited and Sodexo Service Group Limited. These 11 projects have the potential to lever in capital expenditure totalling £68.02 million whilst creating 831 jobs and safeguarding a further 454 jobs at an average cost per job of £5,984.

134. The Board continues to support the quality approach adopted by the Northwest Regional Development Agency, and the Board's ability to support the majority of the cases presented to it reflects this approach. The cases considered by the Board were mainly from manufacturing companies in the region, which is a positive indicator of the regional economy and is welcomed. The Board supported a variety of projects in the electronics, pharmaceutical, aerospace and composites industries.

135. During the year, the Board welcomed the re-appointment of members; Eva Wisemark and George Verghese.

MARCUS WOOD

Chairman

South West

Government Assistance

136. During the year, 16 applications for SFIE were received and 13 offers accepted to the total value of £3,440 million. These projects were associated with £16,061 million capital investment, and were forecast to create 309 jobs and safeguard 497 jobs, at an average cost per job of £4,268. These figures compared to 19 applications in 2005/2006, with 16 offers accepted to the value of £6,205 million towards capital investment of £33,091 million and the creation of 192 jobs and the safeguarding of 1,083.5 at an average cost per job of £5,727.

137. With the focus on high quality projects, all supported applications have passed the skills and productivity tests as part of SFIE. Emphasis has continued to be placed on the need for projects to demonstrate the presence of innovation, one of the key drivers of productivity improvement, along with evidence demonstrating the project's alignment with the Regional Economic Strategy.

Report by the Chairman

138. During the year the Board met on 3 occasions to consider 3 cases for support. The Board recommended 2 of the cases for support.

139. One application was presented to the board which was not recommended for support. The officials at SWRDA were advised to request additional information on the case prior to the case being reconsidered by the Board. The case was not reconsidered during the year.

140. The total amount of grant recommended was £1,206,125 resulting in capital investment in the region of £7,974 million. This represents a decrease compared to the previous year when the total grant approved was £5,342 million resulting in £28,752 million of capital expenditure.

141. The projects supported this year will result in 45 jobs being created and 321 being safeguarded at an average cost per job of £3,295 compared to an average of £5,263 in the previous year.

142. The applications supported during the year were in the areas of Advanced Engineering and Book Manufacturing.

143. The officials at SWRDA have continued to emphasise the quality features required of successful applications to both companies and their advisers. Emphasis continues to be placed on innovation as a driver of productivity improvement in the South West.

144. The Assisted Area map was reviewed during the year. The region's Assisted Areas remain largely unchanged with the exception of the loss of 5 wards in Plymouth. On the whole, the Board are pleased with the outcome of this review, although there was some disappointment that Torbay had not been awarded Tier 2 status.

145. This year, the Board saw Rama Nand-Lal, John Crownshaw, Alan Hayman, Ruth Bagley, Denise Major and Vicki Pickering re-appointed as members. We welcome these re-appointments.

146. I would like to take this opportunity to thank the Board for their continued commitment throughout the year and for bringing a wealth of experience to the assessment of the cases, and the officials of SWRDA for the high quality of the support which they provide.

TERENCE SLATER

Chairman

West Midlands

Government Assistance

147. During the year, 120 applications for SFIE were received and 88 offers accepted to the total value of £12.6 million. The projects in respect of which offers were accepted were associated with £89.4 million of capital investment, and were forecast to create 1,281 jobs and safeguard 765 jobs, at an average cost per job of £6,179. These figures compared to 94 applications in 2005/2006, with 90 offers of SFIE accepted to the value of £14.3 million, towards capital investment of £101.6 million and the creation of 1,078 jobs and the safeguarding of 1,663 jobs, at an average cost per job of £5,225.

Report by the Chairman of the West Midlands Industrial Development Board

148. During the year, 3 meetings of the West Midlands Industrial Development Board were held and 4 cases considered. These resulted in 4 offers being made to the total value of £5.8 million on projects associated with capital expenditure of £29.2 million, which were forecast to create 337 jobs and safeguard 323 jobs at an average cost per job of £8,797. The projects supported have principally comprised investment in established businesses to protect their competitive position and capitalise on export opportunities.

149. Despite the reduction in Board sized cases, applications and offers in total have been at similar levels to last year. I am grateful to all members for their valuable contribution to the work of the Board.

DAVID GROVE
Chairman

Yorkshire and the Humber

Government Assistance

150. During the year, 106 applications for SFIE were received and 71 offers accepted to the total value of £9.98 million. These projects were associated with £76.42 million capital investment, and were forecast to create 1,121 jobs and safeguard 316 jobs, at an average cost per job of £5,986 (The cost per job excludes grants less than £100,000). These figures compared to 126 applications in 2005/2006, with 96 offers accepted to the value of £14.49 million, towards capital investment of £130.7 million and the creation of 1,306 jobs and the safeguarding of 1,216, at an average cost per job of £5,125.

151. The projects supported by SFIE are forecast to lead to increased productivity against industry averages, and employ people skilled to NVQ level 2 or above. However the number of applications and acceptances went down due to various external factors such as the large increases in energy prices, increases in raw material prices and competition from low labour cost countries.

East Midlands

Government Assistance – Assistance under Section 7

152. During 2006/2007, a total of 34 applications for SFIE in the East Midlands' Assisted Area were received by *emda* and 25 offers made to a value of £6.15 million (2005/2006 – 35 applications received, 27 offers made to a value of £3.61 million). These projects were associated with £61 million of capital investment, and were forecast to create 400 jobs and safeguard 857.5 jobs, at an average cost per job of £4,893 (2005/2006 – £36 million capital investment, 618.5 jobs created and 312.5 jobs safeguarded, and an average cost per job of £3,878).

153. Included in these figures were grants to a value of £4.2 million agreed by the Yorkshire and the Humber and the East Midlands Industrial Development Board. Two of these three grant offers were offered to internationally mobile projects (2005/2006 – £1.3 million agreed and two grant offers, including one internationally mobile project).

154. During 2006/2007, a total of 46 claims from projects in the Assisted Area were processed by *emda*. Final spend on these claims was £5 million. The number of jobs created and safeguarded totalled 931 jobs. As at 31 March 2007, commitments in the East Midlands' Assisted Area stood at £10.1 million covering 79 projects.

Government Assistance – Assistance under Section 8

155. In 2004, *emda* undertook a regional consultation exercise and a full appraisal, resulting in the decision to extend the SFIE scheme beyond the Assisted Area into the East Midlands' Core Objective 2 area for SME businesses only, with the support of the European Regional Development Fund (ERDF). This is effectively the Tier 3 SFIE scheme operated by the other eight English regions. The SFIE Extension scheme in the East Midlands was officially launched on 26 November 2004 and closed to new applications on 31 December 2006.

156. For the nine months to 31 December 2006, 22 applications were received and 15 offers made to a value of £1 million (2005/2006 – 17 applications received, 13 offers made to a value of £626,500). These projects were associated with £10.2 million of capital investment, and were forecast to create 87 jobs and safeguard 144 jobs, at an average cost per job of £4,366 (2005/2006 – £5.8 million capital investment, 78 jobs created and 33 jobs safeguarded, and an average cost per job of £5,491).

157. During 2006/2007, a total of 10 SFIE claims were processed by *emda*. Final spend on these claims was £301,000. The number of jobs created and safeguarded totalled 31 jobs. As at 31 March 2007, commitments in the East Midlands' Core Objective 2 area stood at £1.4 million covering 36 projects.

158. Following the introduction of the SFIE scheme on 1 April 2004, *emda* have continued to place a greater emphasis on the strategic and quality aspects of applications, rigidly applying both the productivity and skills tests. The 40 offers made under both Section 7 and Section 8 in the nine months to 31 December 2006 will generate growth in labour productivity (Gross Value Added) equivalent to £92.8 million. This represents an improvement in labour productivity equivalent to £13.84 for every £ of SFIE grant and compares to £11.68 for every £ of SFIE grant offered in 2005/2006 (an increase of 18.42%).

159. On 1 April 2004, *emda* took over responsibility for paying the remaining claims under the Enterprise Grant Scheme (EGS). During 2006/2007, a total of 2 EGS claims were processed to a value of £34,342, creating 6 jobs. As at 31 March 2007, no further grant payment commitments remain.

160. *emda's* Board approved the region-wide delivery of the SFIE scheme to small and medium-sized enterprises across the whole of the East Midlands on 25 January 2007, as well as small and medium-sized enterprises and large businesses in the region's Assisted Area. The East Midlands' Assisted Area for the period 2007 – 2013 is reduced in size by a third following the recent review of the UK's Assisted Areas and has lost a number of significant employment centres.

Report by the Chairman of the Yorkshire and the Humber and the East Midlands Industrial Development Board.

161. The Board was of the opinion that SFIE had played a significant role in securing additional capital investment in the region, despite the continuing difficult business climate for the region's key manufacturing markets, and in creating and safeguarding jobs in the region this year. During the year the Board met on 9 occasions and considered a total of 11 SFIE applications. A total of 11 offers of grant totaling £11.8m were approved in support of projects expected to result in £95.9 million capital expenditure and the creation/safeguarding of 2,327 jobs. The average cost per job was £5,069 on cases considered by the Board.

162. This year, the Board saw Edwards Stanners and Gary Lumby re-appointed as members. We welcomed these re-appointments. Andrew Bradley and Christine Dunn were not re-appointed, we thank them for their contribution to the Board.

ZULFI HUSSAIN
Chairman
