Dear Colleague,

Thank you for registering for the **Crowd Dynamics** course. This course is for people who have a Crowd Dynamic project they wish to work on with experts, and fellow delegates.

We would expect delegates to have completed the **Introduction to Crowd and Public Safety Management** course.

In order to get the most out of the course please read the information below and prepare for the course as suggested.

1. **What to do now:** review the events for which you are responsible and discuss them with colleagues from various parts of your organisation and other stakeholders. You may find it helpful to review your organisation's crowd, public safety plans and event plans in order to understand the roles and responsibilities of your organisations. For those of you who are new to crowd and public safety management or indeed those who may need a refresher before coming on the course, please go to our Crowd and Public Safety Management pre-course work link and read the information – there is not need to complete the task sheet.
2. **What to bring to the course:** delegates **MUST** bring their event plans, maps, and as much associated supporting information as possible.
3. **How the course is delivered:** the course will be based around presentations followed by group and individual exercises that will help you apply the concepts to your own situation. The emphasis at the College is on highly interactive courses and you will be encouraged to share experiences, ask questions and explore issues in the interests of you own learning and that of other delegates.

Please do not hesitate to contact our learning support team if you have any queries.
We look forward to seeing you at the college.

Yours faithfully

Learning Support Manager
