Source: SSDA903

1. Source: SSDA903 return on children looked after.
2. Data for all 5 years is based on the snapshot taken in July 2008.
3. This indicator follows the same definition as used in Annual Performance Assessment (APA) indicator 5037SC. Ofsted published data for this indicator for the year ending 31 March 2008 in September 2008.
4. Figures exclude children who were looked after on 1 April aged 16 years (in their 17th year) under an agreed series of short term placements (SSDA903 legal status codes of V3 and V4).
5. Historical data may differ from older publications. This is mainly due to the implementation of amendments and corrections sent by some local authorities after the publication date of previous materials.
6. This represents the percentage for National Indicator (NI) 147 entitled 'Care leavers in suitable accommodation' which is obtained from $X/Y*100$ where
 X = the number of young people aged 19 who were looked after under any legal status (other than V3 or V4) on 1 April in their 17th year, and who were in suitable accommodation.
 Y = the total number of young people aged 19 who were looked after under any legal status (other than V3 or V4) on 1 April in their 17th year. The denominator should also include those young people looked after who were not in touch with local authorities.
7. Percentages have been derived from unrounded numerator and denominator figures.

Table NI 148: National Indicator 148 - The percentage of former care leavers aged 19 who were looked after on 1 April in their 17th year, who were in education, employment or training, by Local Authority ^{1,2,3,4,5,6,7}

Source: SSDA903

1. Source: SSDA903 return on children looked after.
2. Data for all 5 years are based on the snapshot taken in July 2008.
3. This is a new indicator with this exact definition, therefore there is no Annual Performance Assessment (APA) indicator equivalent.
4. Figures exclude children who were looked after on 1 April aged 16 years (in their 17th year) under an agreed series of short term placements (SSDA903 legal status codes of V3 and V4).
5. This represents the percentage for National Indicator (NI) 148 entitled 'Care leavers in education, employment or training' which is obtained from $X/Y \times 100$ where
 X = the number of young people aged 19 who were looked after under any legal status (other than V3 or V4) on 1 April in their 17th year, and who were in Education, Employment or Training (EET).
 Y = the total number of young people aged 19 who were looked after under any legal status (other than V3 or V4) on 1 April in their 17th year. The denominator should also include those young people looked after who were not in touch with local authorities.
6. Percentages have been derived from unrounded numerator and denominator figures.
7. Historical data may differ from older publications. This is mainly due to the implementation of amendments and corrections sent by some local authorities after the publication date of previous materials.
