

Hi strategic unit disability team,

I hope mental health will be considered as one of your disability targets. I am a carer of a manic depressive daughter and work locally on mental health issues in Woking. Joining up & getting an overall policy for mental health for juveniles (up to 18 years, adults 18-64 ,and old people -65 plus) . is very important as well as getting mental health in prisons & detention centres on board.

Keep up the good work-happy to give any further comments if needed.

Alastair Gray
