

Dear Sir,

Your consultation on alcohol and its affects on society makes no mention of the affects of alcohol on Road Safety and the deaths and prosecutions which result from drivers and motorcyclists using the roads while their abilities are affected by alcohol. Many pedestrian casualties particularly at night are also under the influence of alcohol.

Is the failure to mention alcohol's affect on road casualties because the strategy document is not intended to cover this area or is it an oversight.

If the affect of alcohol on the safety of those using the roads will be covered in the strategy then RoSPA would welcome the opportunity to contribute to the consultation process.

Yours sincerely

Linda Morrison Allsopp
