**IP Crime and On-Line Infringements working group**  
**Chair: Angela Mills Wade – Digital Content Forum**  
**Aims**

To work with the creative industries, consumers, manufacturers, telecommunications industries and other key stakeholders to inform and make recommendations to the Creative Industries IP Forum on issues affecting physical IP crime and online infringements in national and international contexts.

**Terms of Reference**

**The Working Group will:**

- Identify existing good practice models that could be shared more widely.
- Build on existing collaboration and co-operation on industry and Government initiatives, such as the Patent Office IP Crime Strategy.
- Determine to what extent illegal file sharing requires a different response from physical IP crime and what that should be, whilst recognising legitimate consumer and citizen interests and expectations and the role of Internet Service Providers.
