Dear Tessa,

I hear you are reviewing Radio One's - BBC Urban project. We are a leading dance music promotions company and we wanted to drop you a line to air our opinion that they should be awarded and granted the opportunity to the license. Over the years dance music has become a force and allowing a situation and idea like that of Urban to come to air will only help the development even further. You are obviously in a position to help in-force creative new ideas so.....Bring on the future!

Yours radically

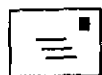

Paul 'Radical' Ruiz
