

# Newham

Here is summary of representations received in relation to Newham Council's casino bid.

## Support

- We received one letter supporting the Newham casino bid, describing it as one of the most deprived boroughs in the country and considerably underserved in leisure and entertainment facilities. A casino would be an important addition to ExCeL London in not only helping to create a vibrant night time economy but also increasing its already growing economic impact to Newham and London.<sup>1</sup>
