

North East Lincolnshire

Here is summary of representations received in relation to North East Lincolnshire's casino bid.

Support

- We received no letters of support

Objections

- We received one letter opposing the North East Lincolnshire casino bid.
- The main concern was that a casino would have a negative impact on the local community. The letter states that there are already enough gambling facilities in the form of betting shops, amusement arcades and a bingo hall in the locality and parking is a problem for local residents. The letter also raises concerns that a casino would bring more problems to the town.¹
