FULL LIST OF CSCF PROJECTS

CSCF No	Agency	Country	Project Title	Purpose	Start Date (Financial Year)	Total Offered (£)
94	HELPPAGE INTERNATIONAL	Peru	Network for Exchange and Action On Ageing	At its core, this project will empower people, especially women, to exercise their right to access information under new legislation that was promulgated in August 2002, to help ensure that they can make and implement meaningful choices about their reproductive and sexual health. By being able to scrutinise public policy and its compliance throughout the health service, women will be able to participate effectively in debate about the issues and interests affecting their reproductive and sexual health and to demand constitutional and legal rights that are often overlooked. By training public officials in their responsibilities and obligations under the freedom of information law, they will be better equipped to respond to information requests from civil society and to facilitate a culture of transparency and accountability within the health sector which has been traditionally very secretive. This project is designed to bring together those who need information with those who are responsible for releasing it	2000/01	111,453

To ensure small farmers' participation in national and international policy making over land rights and rural development. To build alliances within Mozambique, with movements from abroad	2004/05	238,635
265	ARTICLE 19	Peru	Access to Information and Reproductive and Sexual Health Rights - A New Platform for Change	At its core, this project will empower people, especially women, to exercise their right to access information under new legislation that was promulgated in August 2002, to help ensure that they can make and implement meaningful choices about their reproductive and sexual health. By being able to scrutinise public policy and its compliance throughout the health service, women will be able to participate effectively in debate about the issues and interests affecting their reproductive and sexual health and to demand constitutional and legal rights that are often overlooked. By training public officials in their responsibilities and obligations under the freedom of information law, they will be better equipped to respond to information requests from civil society and to facilitate a culture of transparency and accountability within the health sector which has been traditionally very secretive. This project is designed to bring together those who need information with those who are responsible for releasing it	2004/05	126,763

FULL LIST OF CSCF PROJECTS

CSCF No	Agency	Country	Project Title	Purpose	Start Date (Financial Year)	Total Offered (£)
