

## F. Development programme resources

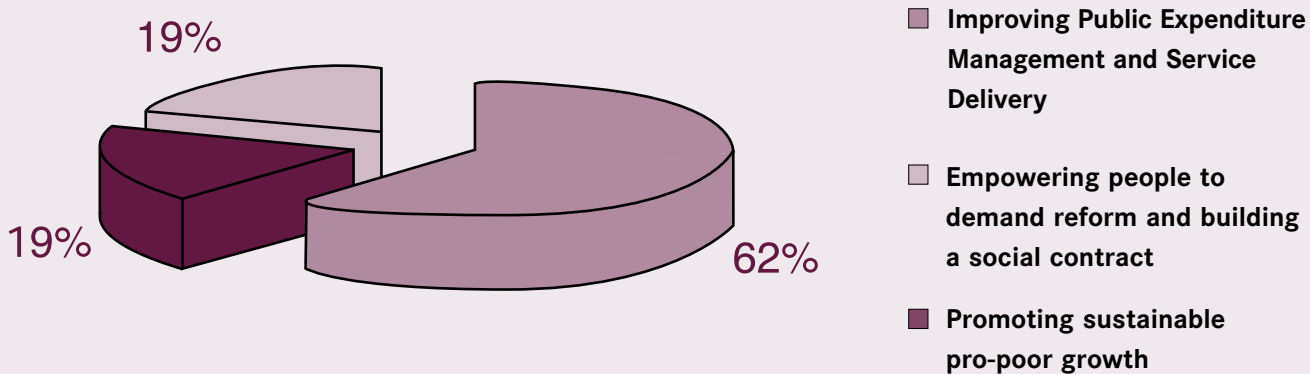

DFID Nigeria's aid framework allocation for 2004/05 is £43 million rising to £70 million in 2005/06, and £100 million in 2006/07, subject to satisfactory and sustained country level performance. In view of opportunities brought by the new economic team, its ambitious reform agenda and the implementation of the NEEDS strategy, the UK hopes to move towards government-managed grants and joint multi-donor direct budgetary support during the next three years.
