1. Descriptions of aid types given on page 7.

2. 2001/02 is a unique year in that total DFID expenditure is understated by around £140m due to move to resource accounting. See glossary for details.

3. Includes CDC investments, non-DFID debt relief, contributions from Other Government Departments to CSOs, British Council and Global Conflict Pool, and small amounts of drug related assistance funded by the home office and FCO.

6. Income groups are classified using 2001 GNI per capita thresholds, see glossary for details. Pacific country expenditure is not included in these totals as bilateral assistance to the Pacific is provided under a single regional programme. The income group and LDC status of individual countries can be seen in Table 25.
