1. Income groups are classified using 2001 GNI per capita thresholds, see glossary for details. This table covers only bilateral aid which can be attributed to individual countries. Pacific country expenditure is not included in these totals as bilateral assistance to the Pacific is provided under a single regional programme. The income group and LDC status of individual countries can be seen in Table 25.
2. 2001/02 is a unique year in that total DFID expenditure is understated by around £140m due to move to resource accounting.
