

Annex 19 Examples of mapping all domestic transport CO₂ emissions (2005)

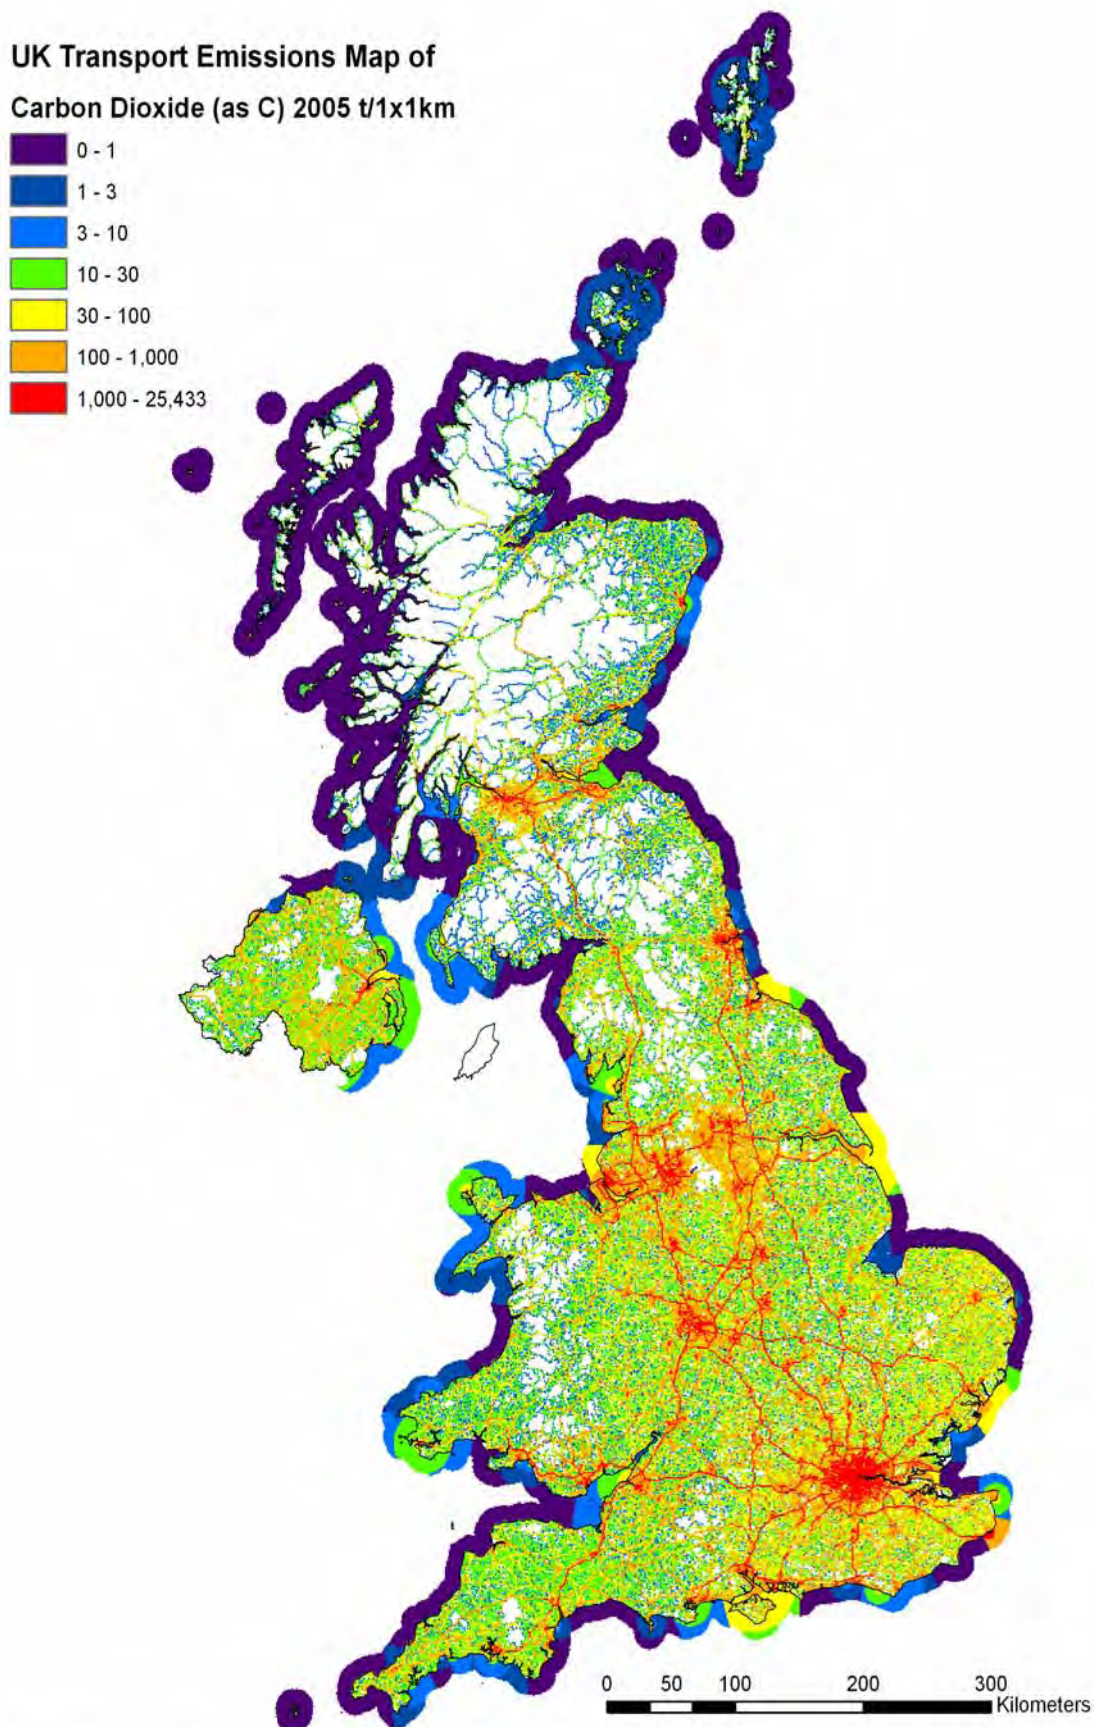

This annex contains two examples of maps using data from the UK National Atmospheric Emissions Inventory (NAEI), maintained by AEA on behalf of DEFRA and the Devolved Administrations. NAEI includes data and maps of CO₂ and other pollutants from transport and other sources, emissions are allocated to areas one square kilometre. For more information and maps see http://www.naei.org.uk/mapping/mapping_2006.php.
