

# The e-mark

The above diagram shows the shape and relative dimensions of the e-mark. It is reproduced from the Annex to Schedule I to the Measuring Instruments (EEC Requirements) Regulations 1975.

When applied to the container of a package the following criteria also apply. It shall be:—

- a. at least 3 mm high;
- b. placed in the same field of vision as that of the statement of nominal quantity;
- c. indelible, clearly legible and visible under normal conditions of presentation of the package.
