Webliography

This 'webliography' contains a list of useful sites. Many other environmental information sites exist. Many of the sites listed contain links to a variety of others.

1 Carbon companies

Climate Care – Climate Care takes the global warming out of the things we use at an affordable price provides a CO₂ calculator and visitors can offset their CO₂ emissions through reforestation, renewable energy and energy efficiency projects

<http://www.CO2.org/>

CO₂e.com “The global hub for carbon commerce.” CO₂e.com has been formed to prepare corporations globally to understand and manage the impact of a greenhouse gas constrained future.

<http://www.co2e.com/>

The Edinburgh Centre for Carbon Management – specialist advisors in carbon management to government and industry.

<http://www.eccm.uk.com/>

Future Forests – will plant trees to offset your carbon emissions, to help you become a carbon neutral citizen, household or corporation.

<http://www.futureforests.com/index2.html>

The Pew Centre on Global Climate Change: Advancing the debate through credible analysis and cooperative approaches.

<http://www.pewclimate.org/>

2 Carbon calculators

The Climate Change Calculator is an interactive software tool designed to raise people's awareness of the greenhouse gases they produce through their daily activities and lifestyle choices.

<http://www.climcalc.net/>

A calculator for carbon emissions from flying.

<http://www.chooseclimate.org/flying/index.html>

Safe Climate is a project of the World Resources Institute, US. Use the calculator to determine the carbon dioxide footprint for yourself or your organisation.

<http://www.safeclimate.net/>

Simple calculator for travel and home energy use:

http://www.co2.org/CO2_calc.asp

3 Green lifestyle information

Global Action Plan green score questionnaire

http://www.globalactionplan.org.uk/greenscore/gs_fset.html

Government information site on several environmental issues.

<http://www.doingyourbit.org.uk/>

4 The Kyoto protocol

<http://www.unfccc.de/resource/convkp.html>

5 Climate change science and research

A new, interactive site from Oxford University, launched February 2002. This site will provide you with the latest ideas and research on all aspects of our changing environment.

<http://www.changingclimate.org>

UK government-funded site on the impacts of climate change: UK Climate Impacts Programme.

<http://www.ukcip.org.uk>

Official studies and news from the Intergovernmental Panel on Climate Change.

<http://www.ipcc.ch>

The UNEP.Net Climate change portal provides the authoritative source of climate change information used by UNEP and its partners

<http://climatechange.unep.net/>

UK Met Office and Hadley Centre

http://www.metoffice.gov.uk/research/hadleycentre/models/carbon_cycle/introduction.html

Global climate change student guide

<http://www.doc.mmu.ac.uk/aric/gccsg/index.html>

Enclyopaedia of the Atmospheric Environment

<http://www.doc.mmu.ac.uk/aric/eae/index.html>

National Air Quality Information Archive (UK) – data on UK greenhouse gas emissions.

<http://www.aeat.co.uk/netcen/airqual/index.html>

Appendix 1: Biffaward sustainable resource use programme

Full details of all the projects listed, and new projects subsequent to this report's publication, are given at: www.biffaward.org

<i>Organisation</i>	<i>Project Name</i>
BioRegional Development Group	Reclaimed Materials in Construction: BedZed Mass Balance
British Furniture Manufacturers Ltd	Benchmarking wood combustion
British Glass Foundation	A fundamental appraisal of the environmental impact of large-scale glass manufacture
Castings Technology International	Mass Balance Study for the Foundry Sector
EA Technology Environmental Group	Mass balance study into Agricultural Waste...
EcoSys Environmental Managment & Education	Sustainable Waste Management in the South East – Resource Flow Mapping
Horticulture Research International	Mass Balance Model of Nitrogen Flows in the UK
Imperial College	Island State
IWM (EB)	City Limits
Midlands Environmental Business Club	Exhibition Industry – Sustainable Waste Management Guide
National Society for Clean Air and Environmental Protection	A Mass Balance of the UK Newspaper Industry
RAC Environment Ltd	Resource Flow Analysis of the British Poultry Industry
RSNC	Dissemination of resource flows in UK Economy
RSNC	Mass Balance Ecological Footprint of the NHS
Scottish Institute of Sustainable Technology	An Integrated Implementation Strategy for Waste Electrical and Electronic Equipment in Scotland
SWEET	Chemicals Industry Mass Balance
SWEET	Paper Industry Mass Balance
SWEET	Ceramics Industry Mass Balance
TIET	Sustainable Timber Waste
University of Leeds Environmental Trust	Analysis of Packaging Flows in the UK: Phase II Study – Data Collection and application
University of Surrey Environmental Body	Economic Dimensions of Materials Flows of Iron, Steel and Aluminium in the UK
Viridis	Mass Balance of the Construction Industry
Waste Watch	The Environmental Footprint for the Public Sector
Waste Watch	Research and Development to Identify and Evaluate the Environmental Footprint for the Financial Sector (Phase 2)
Westcountry Rivers Trust	Sustainable management of organic materials in agriculture

Appendix 2: BNSC-LINK carbon offset verification project

Participating Researchers

Environmental Change Institute, University of Oxford

Dr Terry Dawson, Principle Investigator
 Dr Clare Rowland, Project Manager
 Genevieve Patenaude,

Department of Plant Sciences, University of Oxford

Dr Peter Savill
 Brian Briggs (formerly of the Dept.)
 Dr Simon Pryor (formerly of the Dept.)

Academic Partners:

Dr Heiko Balzter, Centre for Ecology and Hydrology, Monks Wood
 Dr Adrian Luckman, University of Wales, Swansea
 Dr Ronnie Milne, Centre for Ecology and Hydrology, Edinburgh

Industrial Partners:

Peter Jones, Biffa Waste Services Ltd.
 Pedro Moura Costa, EcoSecurities Ltd.
 Gareth Phillips, SGS

Collaborators:

Loiuse Aukland, EcoSecurities
 Dr Pam Berry, Environmental Change Institute, Oxford University
 Tina Fawcett, Environmental Change Institute, Oxford University
 Jan Fehse, EcoSecurities
 Dr David Gaveau, Centre for Ecology and Hydrology, Monks Wood
 Dr France Gerard, Centre for Ecology and Hydrology, Monks Wood
 Andrew Hurst, Environmental Change Institute, Oxford University
 Dr Conor Linstead, Forum for the Future
 Irma Lubrecht, SGS
 Dr Paul Saich, Department of Geography, University College London
 Laine Skinner, University of Wales, Swansea

Scientific outputs

To date:

Gaveau, D.L. and Hill, R.A., *A semi-automated method to derive terrain models under forests from airborne laser scanning data: a step towards canopy height estimation*, Forestry Ecology and Management (submitted)

Patenaude, G., Briggs, B., Milne, R., Dawson, T., and Pryor, S., *The carbon pool in a British Semi-Natural Woodland*, Journal of Forestry (submitted)

Patenaude, G., Dawson, T.P., and Rowland, C.S., (2001) *Forest Net Primary Productivity Model Comparison*, Geomatics, Earth Observation and the Information Society, The Remote Sensing and Photogrammetry Society, Nottingham, UK, CDROM.

Patenaude, G., Dawson, T.P., and Rowland, C.S., (2001) *The Role of Remote Sensing in Reducing the Uncertainty of Forest Carbon Estimation*, Geophysical Research Abstracts, CDROM.

Patenaude, G., Rowland, C.S. & Dawson, T.P. *Uncertainty in forest carbon estimation: three perspectives*, British Ecological Society conference 2001 (in press)

Rowland, C.S., Balzter, H., Dawson, T.E., Luckman, A., Patenaude, G., and Skinner, L., (2001) *Aboveground forest biomass estimation from SAR data: A comparison of techniques*, Geomatics, Earth Observation and the Information Society, The Remote Sensing and Photogrammetry Society, Nottingham, UK, CDROM.

Grant, J., Gaveau, D. and Balzter, H., (2001) *Remote sensing of tree height in Thetford Forest using SAR and LiDAR*, CEH Project Report, CEH Monks Wood

6 Energy

UK government site on energy use by domestic and commercial equipment and appliances

<http://www.mtprog.com>

Energy Saving Trust works for energy savings in the domestic and small business sector.

<http://www.est.co.uk>

The Carbon Trust has been established to help business prepare for a low carbon future and exploit the commercial opportunities that are on offer.

<http://www.thecarbontrust.co.uk>

European site on energy efficiency.

<http://www.eceee.org>

7 Waste and resources

Scottish Environmental Protection Agency – Waste Minimisation

<http://www.sepa.org.uk/wastemin/intro/index.htm>

Waste Watch – promoting action on waste reduction, reuse and recycling.

<http://www.wastewatch.org.uk>

Environmental Services Association – trade body for the waste management industry.

<http://www.esauk.org/>

Forum for the Future – Sustainable Economy Programme. The programme seeks to accelerate the development of an economy, which combines environmental sustainability with economic and social well-being.

http://www.forumforthefuture.org.uk/new_website/html/sep.html

General

Department for Environment, Food and Rural Affairs (UK). Information on climate change and waste management.

<http://www.defra.gov.uk/environment/index.htm>

ENDS – Environmental Data Services – a general environmental news magazine.

<http://www.ends.co.uk/>

Edie – Environmental Data Interactive Exchange – the online community for water, waste and environment professionals.

Lower Carbon Futures, Environmental Change Institute, University of Oxford

The three authors are all part of Lower Carbon Futures (LCF) – a new research initiative at the ECI that is centred on carbon reduction policy. LCF builds and expands upon the ECI's existing energy and environment expertise, focussing on the design and analysis of policy for the efficient use of energy and the use of renewable forms of energy. LCF will combine studies of renewable sources of energy supply, energy use and lifestyle changes into a coherent, integrated strategy for policy that will reduce carbon emissions. This combination of energy demand and supply, behaviour and policy will form the core of the new research group.

changingclimate.org is the ECI's internet-based public participation forum for climate change. The site is hosting a discussion about the issues raised by *carbon uk*.

Funding

This project was funded through the Landfill Tax Credit Scheme, with support from Biffaward, Linacre College and TXU Europe Power.

The Authors

Tina Fawcett

Tina was a researcher in the Lower Carbon Futures team for five years. She has an MSc in Environmental Technology and prior to joining ECI worked for several years in consultancy and for the Environment Agency. Tina is now studying for a doctorate in housing policy at the Bartlett School of Architecture, University College, London.

Andrew Hurst

Andrew has an MSc in Environmental Change and Management and is currently studying for a doctorate in the history of forestry policy.

Dr Brenda Boardman, MBE, FinstE (contact author)

Brenda leads Lower Carbon Futures and has been at the ECI since 1991. She has researched the problems of the fuel poor for over 20 years and wrote *Fuel poverty: from cold homes to affordable warmth* (Belhaven/Wiley) in 1991.
