

Pre-Budget Report 2008

24 November 2008

Regional Press Notice

Pre Budget Report 2008 IN EAST MIDLANDS

Key Facts

- Today, the Chancellor has announced a package of measures targeted at supporting small businesses to access the capital and manage the cash flow they require, which may be of particular benefit to the 327,300 SMEs in the East Midlands.
- The Government also announces a package of housing measures to support the objectives of promoting the long-term stability of the housing market and supporting homeowners facing difficulties. Bringing forward of investment in new social housing stock will help the 4,780 households deemed in priority need of housing in the East Midlands.
- As part of a fiscal stimulus package, there will be a temporary reduction in the standard rate of VAT to 15% from 1 December 2008 until 31 December 2009 to provide further support for growth and incomes during the economic downturn. This is the equivalent, for the average household, of £275 a year for extra spending. The Government is also bringing forward £3bn of capital spending from 2010-11 to 2008-09 and 2009-10. Bringing forward valuable public investment will impact directly on economic activity in the UK, in particular supporting the construction sector, which is expected to be disproportionately affected by the economic downturn.
- The Chancellor has also announced a substantial package of measures to ensure that those facing redundancy and those seeking employment are helped back into work as quickly and efficiently as possible. This will help with the 28,973 job vacancies that were notified to Jobcentre Plus in the East Midlands in October 2008.

Quotes

Phil Hope, Regional Minister for the East Midlands said

"My regional economic cabinet and I have been working hard to ensure that businesses and families in the East Midlands receive the support they need in these difficult times. Today's pre budget report will offer real help to those who need it - benefiting the region's businesses, families and communities."

The Exchequer Secretary Angela Eagle MP said

"It is vital at this time of economic uncertainty that Government recognises the pressures affecting individuals, families and businesses in every region of the UK. This PBR provides a fiscal stimulus to help alleviate these short term difficulties, while setting out a responsible strategy for the long term. A 2.5% reduction in VAT will help families and businesses in time for Christmas and a £600 increase in the personal allowance will benefit 22 million basic rate tax payers."
