I. Introduction

The Department for Education and Employment, the Employment Service and OFSTED have responsibility for four Votes in Class IX; Votes 1, 2, 3 and 4. Vote 1 is the Core Department's programmes and central services, Vote 2 the Teachers' superannuation, England and Wales, Vote 3 is the executive agency the Employment Service and Vote 4 is OFSTED. The Teacher's superannuation Vote 2 is administered by Capita on behalf of the DfEE and is funded in a way that is analogous to the Principal Civil Service Pension Scheme (PCSPS) and as such there are no fixed assets held in connection to this Vote. OFSTED is a non-ministerial Government Department, created by an Act of Parliament in 1992 and is independent of the DfEE.

The Department for Education and Employment's NAR includes the following bodies:

Department for Education and Employment (DfEE) - Core Department;
Employment Service (ES)- Executive Agency

Non-Ministerial Government Department

Office for Standards in Education (OFSTED)

The following Executive Non Departmental Public Bodies (NDPBs):

Equal Opportunities Commission (EOC)
Funding Agency for Schools (FAS)
Further Education Funding Council (FEFC)
Higher Education Funding Council for England (HEFCE)
Investors in People UK Ltd (IIP)
National Council for Educational Technology Ltd (NCET)
National Council for Vocational Qualifications Ltd (NCVQ)
Remploy LTD (REMPLOY)
Schools Curriculum and Assessment Authority (SCAA)
Student Loans Company Ltd (SLC)
Teacher Training Agency (TTA)

Also included in the NAR are the two Executive NDPBs:

Construction Industry Training Board (CITB)
Engineering Construction Industry Training Board (ECITB)

These NDPBs are wholly funded from levy income (the Department having no call on the assets) but have been included as they are NDPBs of the DfEE.

The Assets of the Centre for Information on Language Teaching and Research (CILT) and the Education Assets Board (EAB) although NDPBs of the Department have not been included as the assets they hold are below £100,000.

NCVQ ceased operation on 30 September 1997, although it currently still exists as a shell to produce the final accounts. NCVQ's assets and liabilities are to transfer to the new body Qualification and Curriculum Authority (QCA) along with the assets and liabilities of Schools Curriculum and Assessment Authority (SCAA) which also ceased on 30 September 1997.

All DfEE sponsored NDPB's are subject to limitations on the sale of assets acquired with the aid of Government grants. Where assets are sold the sale proceeds or a proportion of them if the grant was less than the whole cost of the acquisition or improvement should be surrendered to the Consolidated Fund as extra receipts. Where an NDPB holds charitable status other restrictions may be imposed on the assets held.

Further information can be found in the DfEE's Departmental Report, the Employment Services agency accounts and in the annual reports and accounts of each executive NDPB.

The NAR has been drawn up at a summary level and includes those assets that would normally be capitalised on each body's balance sheet broken down into appropriate headings

The schedule of assets for the DfEE, ES and OFSTED is as at 31 March 1997. The NDPB details are as at the date corresponding to their year end accounts. The department's asset registers do not include properties (land and buildings) where Property Repayment Services (PRS) rents are payable. Treasury guidance has detailed the need for excluding this information from departmental balance sheets, as if such properties were capitalised it would cause double charges to operating costs e.g. depreciation as well as PRS rents. However for completeness details of such properties are included in the NAR and listed annex 1, 2 and 3, and includes properties with a premium value on a historic leases. From 1 April 1998 PRS rents will cease and these assets will be added to Departmental registers. Properties where modern lease payments are paid to a landlord have not been included in the NAR as these are not assets of the Department and would not normally be capitalised on its balance sheet.

The DfEE and ES will be consolidated under Resource Accounting and its accounting policies are being amalgamated for this purpose. OFSTED will prepare and present its Resource Accounts to Parliament as a separate entity and will have its own accounting policies. Under resource accounting fixed assets will be valued on a modified historical cost basis with property being professionally revalued every 5 years.

NDPBs are not consolidated or obliged to follow the requirements of Resource Accounting. Consequently their accounting policies and basis of asset valuation may differ from that of the sponsor departments.

The Student Loans Company (SLC), an NDPB of the Department, administers the debt portfolio of student loans. These loans are not assets of the NDPB and are therefore not included as part of their balance sheet, rather, a note to their accounts headed 'Statement of Loans Administered' is included. The debt portfolio has not been included in the core Department's NAR, as negotiations are currently taking place for the sale of these debts.
