¹ Changes have been made to the part of the database used to capture information on trading status and industry codes. From 2006 Q4, "self-employed" includes the categories "self-employed"; "trader but failure not as a result of trading" and "trading partnership" and "other individuals" includes "non-trading"; "non-surrender" and "unknown". The breakdown by trading status from Q4 2006 should not therefore be considered to be entirely consistent with that for the earlier period.

² Unknown SIC

³ An industry breakdown according to the previously used Industry Trade Classifications (ITC) is available up to Q3 2008 at http://www.statistics.gov.uk/industry_trade/classifications/industry_trade_classifications.htm

⁴ Data for trading-related bankruptcies have not yet been published for the year ending 2009. This is because the industrial breakdown has been compiled from a specially selected extract from the live database, whereas the headline figures are produced monthly using a different reporting system.

¹ Since the revisions to corporate administration under the Enterprise Act, those administrations which resulted in a Creditors' Voluntary Liquidation (CVL) have been separately recorded by Companies House. These post-Administration new case CVLs are not included under the headline CVL figures at Table 1 as they do not represent a new company entering into an insolvency procedure for the first time. Similar information for Administrations converting to a Compulsory Liquidation or to a Company Voluntary Arrangement is not available; however numbers of these are relatively low in comparison.

This included the introduction of the new route into bankruptcy for people with low income and low assets (LILA). Of the number or sequestrations, individuals who meet LILA criteria are shown in brackets (See "Notes to Editors" paragraph 15).
