

C 138

of [REDACTED] say as follows
 I am a joint owner of the house at [REDACTED] with [REDACTED]. We bought the house in 1991 or 1992 with a mortgage. [REDACTED] and I have split up and she comes down to the house often. There is a right-of-way to the rear of the house and a wooden garage and a garden on the other side of the right-of-way. I don't own a car and there is only a hobbyist in the garage. I never go out to the garage. There is a lock on the side door of the garage and it stays locked. There is a broken lock on the front ^{door} of the garage and anyone could get in.

On 6th February we had been put out of the house in [REDACTED] at 2-45 am because of a bomb scare. I spent the night in Clam Eideam Club, and returned home at 7-00 am. I went to bed at 7-30 am and got up about 12-00 pm. I had breakfast and at about 2-00 pm about 4 Landrovers with soldiers came into the street. They came to the door and asked us to open the garage. I went out and lifted the garage door. There was a car in the garage which I had never seen in my life. I don't know how it got there or when it got there or what was in it. I was extremely shocked. I went to Longen RUC station at about 6-00 pm to see what was happening. I was then arrested.

Dated the 7th day of February 1997
